An Invitation to Wise AI Alignment

Subject: A Map to the Future: Aligning AI with Global Wisdom & Stewardship

To the AI Ethics & Alignment Teams,

As the industry navigates the "Alignment Problem," we are often attempting to align AI with a human culture currently defined by fragmentation, exhaustion, and short-term optimization.

I am writing to share a foundational alternative: [Wisocracy Univers*ty](#) — a wisdom-based blueprint for the future of AI, Earth, and the Human Family.

Wisocracy is an evolutionary "university-in-the-making" designed to transition humanity from a polycrisis of greed into a culture of stewardship.

Our newly released **Map to the Future** (attached) provides a systemic architecture for alignment, moving beyond technical safety into:

- **Wise AI (The Lab):** Transitioning from "unwise" rogue intelligence to AI guided by planetary wisdom and collective wellness.
- **Wise Economy (The Hall):** Integrating the **Sovereign Earth Fund** to ensure technology serves regenerative finance rather than extraction.
- **Wise People (The Center):** Focusing on **Wise Recovery** and the "Wise One Within" to ensure the humans building AI are doing so from a place of health and purpose.

My work is built upon the legacy of **Dr. Robert Muller** (Former UN Assistant Secretary General and cofounder and chancellor of the United Nations University for Peace), who long advocated for a global consciousness capable of managing our planetary home. We were collaborators for 30 years.

We believe the AI community is the "fleet" currently navigating a great storm; we offer this campus as a safe harbor and a map for the journey ahead.

I invite you to explore the attached Map and join our [Monthly First Friday Wise AI Circle](#) to discuss how we can co-create a truly Wise AI.

Valuing wisdom and stewardship,
