## Wisocracy Univers\*ty

We are influencing the minds of people who will be creating the future.

Influence isn't about pushing back the storm today; it's about keeping the light burning so the fleet knows where to find a safe harbor.

We have built a foundation that moves beyond "greed-based" education.

We are teaching stewardship at a time when the world is finally realizing it is the only way out of the polycrisis.

An aerial photograph of a modern university campus. The scene is dominated by greenery and sustainable architecture. In the foreground, a large, curved building with a green roof and a glass facade is visible. A central sign reads "WISOCRACY UNIVERSITY" with the tagline "GLOBAL WISDOM FOR A SUSTAINABLE FUTURE". The background shows rolling green hills under a blue sky with scattered clouds. A large white rounded rectangle is overlaid on the center of the image, containing the text "ABOUT REFERENCES".

Sandy Hinden is a very exceptional human being, entirely devoted to a better, ideal world. I have known him for more than 30 years. He constantly inspired me for my work and efforts at the United Nations. He had ceaseless great ideas. He encouraged me to not give up. I would be so happy to see him in charge of a major newspaper section on good news and happiness for the people. He would be very precious for a major philanthropic organization, especially one dealing internationally. I would support his candidacy with the highest terms.

Sandy is an inspirational actionist! He is not afraid to ask the tough questions and explore heartfelt responses to them. The ones that have to do with how we got into this mess as humanity, and what it's going to take for us to get out of it. His wealth of experience and human kindness, combined with political savvy and collaborative working style, make learning with and from him an enriching experience, and always a joy.
