SECTION 1

Welcome to Wisocracy World

Welcome to Wisocracy World

Wisocracy means Wise Democracy.

Wisocracy supports the conscious evolution
of humanity and Earth institutions.

We are a space for
Wisdom Seekers and Wisdom Keepers
to help people become wiser through life-enhancing values of
Loving-Kindness, Respect, Truth, Honesty, Justice, Courage, Humility, Gratitude, Sharing, Caring for Nature, Peace, and Wisdom
so they choose **wiser leaders** who help create
life-sustaining systems and institutions
aligned with nature and future generations.

Wisocracy World Passport

Welcome to Wisocracy World,

Each day, we wake from our inner dream world and enter a dysfunctional dream world created by narcissistic leaders, greed-based corporations, and profit-driven media.

We are a **Progressive News Network** and **World Solutions Design Space** to help you awaken from the dysfunctional dream, and grow in wisdom, evolve consciously, and participate co-creatively in creating the world we want and need.

We provide three meetings for you to enjoy life and connect with others:

- **The Positive Energy Club** – Our Monday evening Club and meeting for positive energy, elevated emotions, and wellbeing.
- **Wisocracy World Café** – Our monthly creative conversation to share humor, enjoy each other, and make sense in a fool's world.
- **World Wisdom Council** – A monthly meeting for people seeking to use wisdom to improve the world locally and globally.

We greatly appreciate your support for our work.
Sandy Hinden

It is difficult to make progress when people's ultimate goal is to inhabit Elite World.
If people can continue conscious evolution, they can inhabit Wisocracy World.

People in Elite World	People in Wisocracy World
Elitism, superiority, privilege	Humility, equality
Power, ego, arrogance, hubris	Ongoing learning and self-improvement
Greed, pursuit of more and more money	Benevolence, goodwill
Ingratitude, lack of appreciation	Gratitude, appreciation of others
Indifference	Caring, compassion
Disdain, contempt	Co-creation
Competition	Collaboration
Selfishness	Respectfulness
Performance, inauthenticity	Authenticity
Disconnection	Community

Why Conscious Evolution Must Precede Global Institutions

Institutions Reflect Consciousness

Any global institution—whether a climate treaty, a peace fund, or an AI governance body —is only as wise as the mindset of the people designing and running it.

When built from an **Elite World** consciousness of hoarding, domination, and national ego, global frameworks inevitably turn into arenas for power games rather than genuine stewardship.

From Dominance to Mutualism

Throughout human history, survival favored small-group competition and hierarchy.
Today, facing interconnected challenges like ecological collapse and global AI,
survival depends on the next evolutionary step:
recognizing our shared interdependence and
shifting from dominating to **co-creating**.

Conscious Tools for Civic Infrastructure

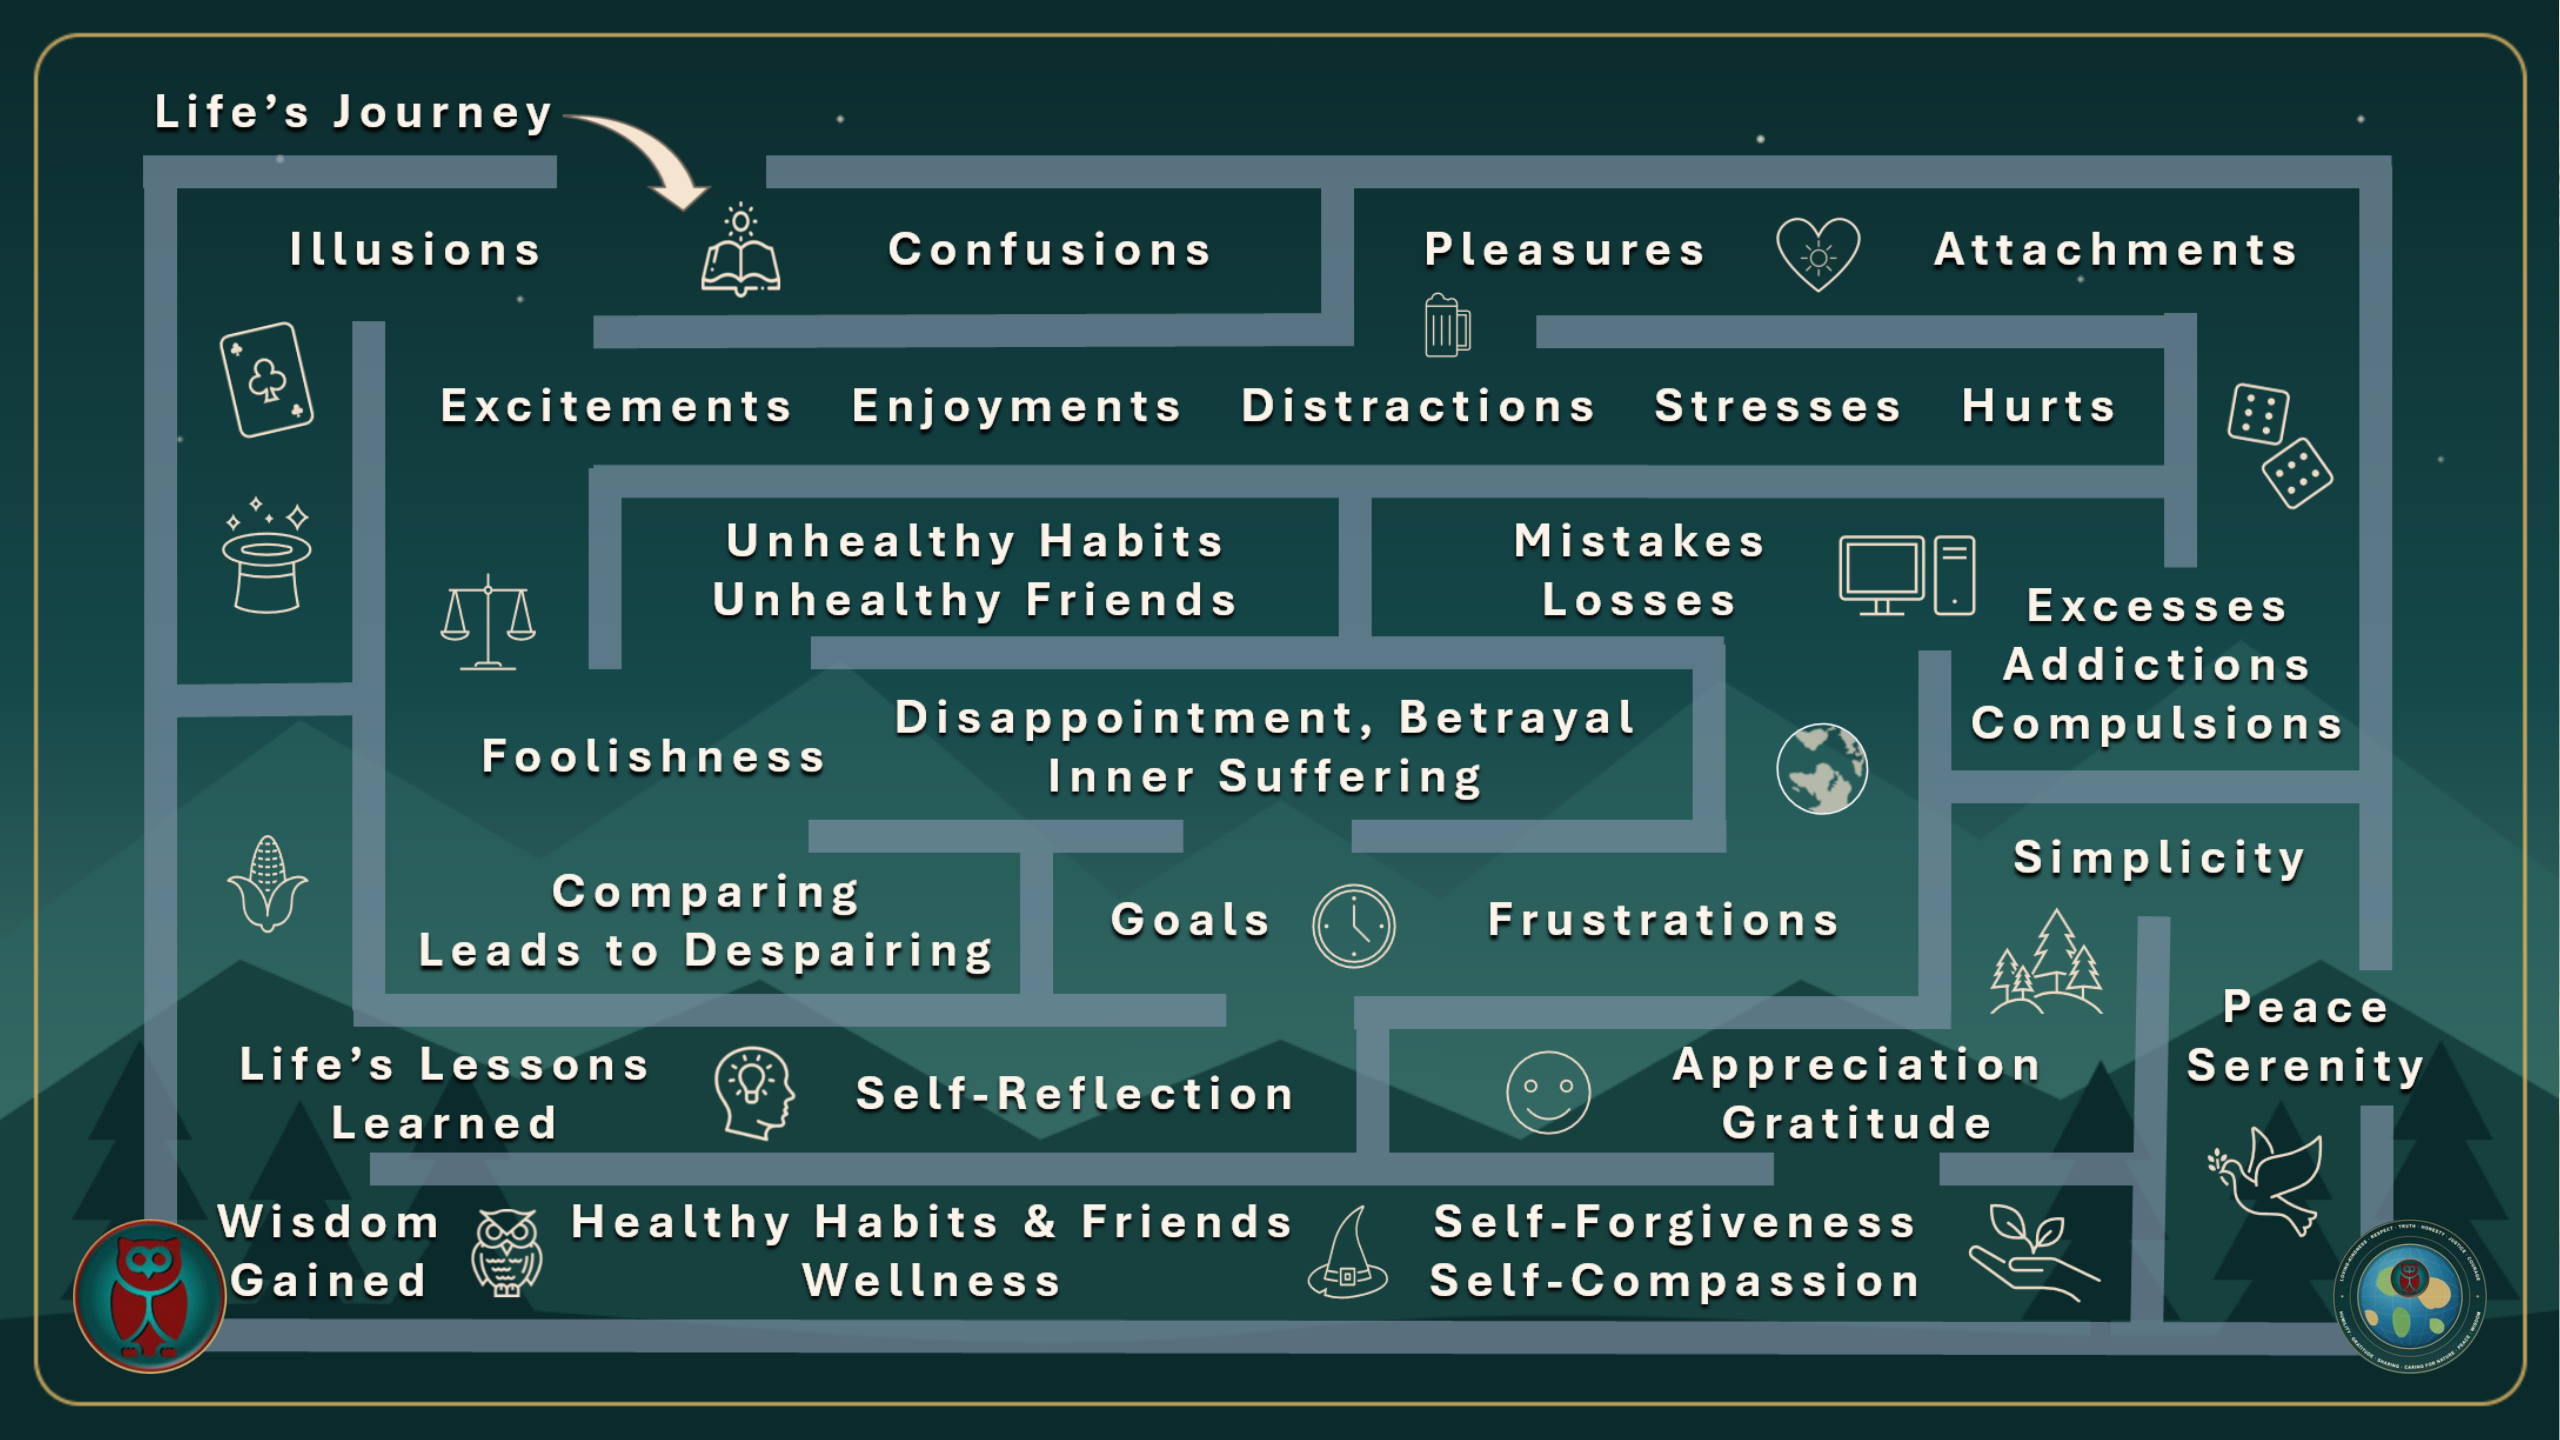

Mindfulness and **compassionate communication**
are not separate from global politics — they are the prerequisite for it.
People cannot build wise, cooperative global institutions until they have the inner capacity
to regulate their own egos, listen across differences, and act from humility rather than fear.

10 Affirmations for Conscious Evolution

Practicing the Wisocracy World Traits

1. Humility & Equality	2. Ongoing Learning & Self-Improvement	3. Benevolence & Goodwill	4. Gratitude & Appreciation of Others	5. Caring & Compassion
Transcending Elitism & Superiority	*Transcending Power, Ego & Hubris*	*Transcending Greed & Hoarding*	*Transcending Ingratitude*	*Transcending Indifference*
"I meet every person as an equal, knowing that true wisdom begins with humility and a willingness to listen."	"I release the need to prove myself right, and I welcome every moment as an opportunity to learn and grow."	"I measure my wealth by what I can share, choosing generosity and the wellbeing of all over accumulation."	"I notice and appreciate the gifts, efforts, and support of others that make my life possible every day."	"I keep my heart open to the feelings and needs of others, responding to suffering with genuine care and kindness."

6. Co-Creation	7. Collaboration	8. Respectfulness	9. Authenticity	10. Community
Transcending Disdain & Contempt	*Transcending Competition*	*Transcending Selfishness*	*Transcending Performance & Inauthenticity*	*Transcending Disconnection*
"When I see differences, I choose curiosity over judgment, building new possibilities for wellbeing."	"I thrive when we succeed together, trading zero-sum competition for shared purpose and mutual support."	"I honor the dignity, voice, and boundaries of every person and living system around me."	"I let go of masks and performance, showing up with honesty, presence, and courage in every conversation."	"I belong to a living web of life and neighborly care, actively creating connection wherever I go."

I accept
what I can't change,
and change what I can.

Each day,
I return to my program of
meditation, serenity, inner peace, compassion,
loving-kindness, forgiveness, grace, gratitude, simplicity,
asking inner wisdom a question and quietly listening for an answer,
and positive energy bringing me what I need,
one day at a time...

Conscious Evolution Collective

You can't change the culture through social media.
It acts like a vice on people's brains,
keeping them consuming and aligned
with elitism, money, and power.

We need a Conscious Evolution Collective to:

1) Help humans evolve their values and consciousness.
2) Evolve Earth’s rules, laws, and institutions.

Have you ever wondered why meeting with some people feels unfulfilling?
The success of conversation circles and meetings depends on the attitude people bring to the table.

Unfulfilling Meetings	Fulfilling Meetings
Indifference	Enthusiasm
Sarcasm	Good Humor
Concealment, Pretense, Withholding	Caring, Compassion, True Feelings
Disinterest in Others	Mutual Interest in Each Other
Disrespect	Respect
Co-foolishness	Insights, Co-Intelligence, Wisdom
Repetitive Stories	Vision, What We Want & Need
Resistance to New Ideas	Co-Creativity

SECTION 2

Member Benefits and Support

Wisocracy World Member Benefits

Financial Benefits

Thorough feedback and support for one of your projects and goals.

Social Benefits

Thorough connecting with wonderful people in our meetings and programs.

Creative Benefits

Thorough your creative participation with other creative members.

Wisocracy World Member Benefits

- Invitations to all meetings, events, and programs
- Weekly Positive Energy Club meeting
- Monthly World Wisdom Council meetings
- Monthly Wisocracy World Café
- Monthly Wisocracy email updates
- Annual Wisocracy Members' Celebration on Zoom
- A scheduled Zoom meeting with Sandy Hinden
- An opportunity to create a Local Wisdom Council

All Wisocracy members receive the same benefits, opportunities, and meetings.
You may provide different levels of support based on your funding capacity.
We greatly appreciate your support for this work for people, nature, and the world.

SECTION 3

World Update & World Solutions

Update

Shared Demographic Crisis

- Rising life expectancy
- High youth unemployment
- High housing costs
- Lower marriage
- Lower birth rate
- Shrinking workforce
- Strain on pensions and healthcare

Crony Capitalism →

The AI & Attention Economy

- Ever-expanding wealth gap
- Permanent social polarization
- Permanent government gridlock
- Permanent crises

Failed Countries →

Failed Economies

- Permanent war and violence
- Permanent criminal control
- Permanent migration

European Democratic Socialism →

Migration Crisis Response

- Increase in national interests
- Tightening circulation inside Europe
- Tightening boundaries
- Offshore "Return Hubs" and Asylum Freezes

Authoritarian State Capitalism →

Economic & Demographic Stagnation

- Collapsing real estate & local debt
- Surging youth unemployment & gig traps
- Weak consumption, falling births & aging crisis
- Export overcapacity & global trade friction

Solutions

World Works Program 2030

- Worker security as the foundation of global peace
- Dignified youth employment & housing stability
- Rebuilding family & community resilience
- Stabilizing local economies to end forced migration
- Realigning technology with life-enhancing values

1. Global Security Fund

$3 Trillion Capital Redirection

- Shift budgets from military & weapons escalation
- Invest in human wellbeing & local resilience
- Open-source budget allocation tracking

2. Planet Care Economy

Earth Stewardship & Green Jobs

- Employ hundreds of millions of youth
- Topsoil repair, rewilding & nature protection
- Clean energy & local climate adaptation

3. Creativity Pods

Care Economy & Cooperative Hubs

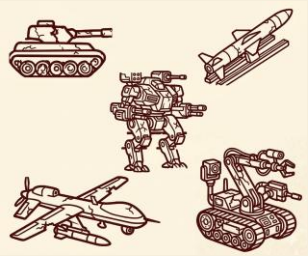

- Worker-owned community & mutual aid hubs
- Mental health, elder care & lifelong learning
- Arts, cultural expression & local problem-solving

4. Wisdom Governance

Life-Enhancing AI & Policy

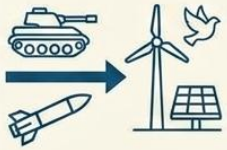

- Guide AI to serve humanity, not replace it
- Shared human values & accountable leadership
- Regional Earth Repair mapping

WORLD FOOLISHNESS INDICATORS

						
Destructive Values, Unhealthy Relationships, Gangs, and Organized Crime	Ocean-Land-Air Disregard & Deterioration	Dysfunctional Countries	AI Alignment with Profit Only Creates Social & Environmental Destruction	Extractive Wealth Building for the Wealthy Only	Ever-Expanding Militarism Creates Human, Social & Environmental Destruction	No Funding for the Needs of People, Society, & Nature
Undermines community trust, fostering fear, conflict, crime, and violence	Accelerates planetary-scale ecological collapse	Governance failing to provide essential services and human security	Subjugates human needs to automated corporate efficiency	Systemically drain public resources for private hoarding	Perpetuates conflicts and divert budgets from all other needs	Systematically withhold resources for essential services and ecosystems

WORLD WISDOM COUNCIL

Civilizational Solutions Dashboard & Working Groups

						
Values & Mentoring	Ocean-Land-Air Health Monitoring System	Functional Countries Index	Wise AI Alignment	Sovereign Earth Fund	Global Military Conversion	Funding the Needs of People, Society, Nature
Provide a values system for flourishing on Earth	Real-time bio-tracking of planetary spheres	Governance based on flourishing	Alignment of machine models with long-term wellbeing	Asset development for both Earth and humanity	Redirect defense manufacturing budgets into a peace economy	Balanced funding of civic structures and biodiversity

Foolishness Indicators	The Current Crisis	WWC Seven Solutions	What Each Working Group Does
Destructive Values	52 people were killed by homicide every hour in 2021, and organized crime and gangs accounted for about 22% of homicides worldwide.	Healthy Values	Develops a shared values framework and mentoring programs for families and communities.
Ocean-Land-Air Disregard	Monitored wildlife populations have shrunk 73% on average since 1970.	Ocean-Land-Air Health Monitoring System	Designs a real-time health dashboard for the ocean, land, and air. See here.
Dysfunctional Countries	2.1 billion people, a quarter of humanity, live in 61 contexts of high or extreme fragility.	Functional Countries Index	Builds an index that measures how well countries enable human flourishing. See here.
AI Alignment with Profit Only	AI will affect nearly 40% of jobs worldwide and likely worsen inequality, yet no leading AI company scored above a D+ on planning to keep it under control.	Wise AI Alignment	Defines principles for aligning AI with long-term human and planetary wellbeing. See here and here.
Extractive Wealth Building	Billionaire wealth hit a record $18.3 trillion, and the 12 richest billionaires hold more than the poorest half of humanity.	Sovereign Earth Fund	Designs a fund that builds lasting assets for both Earth and humanity. See here.
Ever-Expanding Militarism	World military spending reached $2.887 trillion in 2025, the eleventh consecutive year of growth.	Global Military Conversion	Maps how defense manufacturing and budgets can shift into a peace economy. See here.
No Funding for the Needs of People, Society & Nature	The financing gap for the Sustainable Development Goals in developing countries is roughly $4 trillion a year.	Funding the Needs of People, Society, Nature	Develops balanced funding for civic structures, basic needs, and biodiversity.

SECTION 4

Removing Tyrants

Removing Tyrants Through Functional Countries Self-Assessment
5 Steps for Conscious Citizens

Tyrants thrive in societies weakened by fear, division, and neglect.
Rather than relying solely on reactive protest, Conscious Citizens render tyranny obsolete
by measuring what is broken and building what works.

1. **Score Your Country (1–10):** Rate each of the 8 rows honestly from 1 (dysfunction) to 10 (flourishing), looking past political spin to everyday reality.

2. **Pinpoint the Roots:** Identify your 2–3 lowest scores. Authoritarian control (Row 1) is fueled by the greed, debt, division, and neglect beneath it.

3. **Break the Spell Within:** Step back from algorithmic outrage and addictions (Rows 5–6). Cultivate self-guiding humanitarian values, civility, and inner balance.

4. **Build "10s" Locally:** Gather a Local Wisdom Council to raise your community's lived score through mutual aid, cooperatives, respectful dialogue, and Earth stewardship.

5. **Share & Scale the Shift:** Invite others to take the assessment. When citizens shift their energy, votes, and resources toward functional solutions, tyrants lose their power to rule.

Transforming Societies:
The Wisocracy Functional Countries Index
How Well Is Your Country Doing?

Dysfunctional Indicators	1	2	3	4	5	6	7	8	9	10	Functional Indicators
Authoritarian control systems											Self-guiding humanitarian values
Excessive military spending Health, housing, education debt											Spending for affordable housing, health, education
Leadership enrichment schemes Fraud, cronyism, insider trading Oligarchic greed and arrogance											Fair taxes and wages Resource and asset sharing Commonwealth
AI for profit maximization for the rich Education gap High unemployment and social misery											Wise AI for human and Earth wellbeing Quality education and training for all Work for all who need it and want it
Algorithmic polarization and hatred											Respect and civility
Hedonism and pleasure addictions											Harmony, balance, wellbeing
Fraud, criminality, lawlessness White-collar crime impunity											Lawfulness, rule of law
Ocean-land-air destruction and pollution Resource depletion and ecological collapse											Ocean-land-air health and stewardship Clean energy, rewilding, and regeneration
