---	--	--

iThriveOT programs are charged at a program rate and vary depending on staff requirements/planning/reporting and hire fees/consumables required. Please refer to your SA for details and breakdown of charges and cancellation fees/notice requirements. Please ask for further information if required.

Services will only be delivered if funds are confirmed and secured for the program sessions assigned.

If funds are withheld or not available after the service has been provided iThriveOT will commence a review process and seek reimbursement. As part of this process iThriveOT will consider small claims civil litigation to recoup invoiced funds. This process will also incur a cost to you for time spent by iThriveOT for preparing and lodging the claim. Your NDIS package will not pay for this component of the fees.

Our Occupational Therapist and Registered Nurse are registered with the Australian Health Practitioner Regulation Agency (AHPRA). We are not a NDIS Registered provider. We charge against the NDIS pricing guide for services. Our processes are business based and as such there may be deviation from the pricing guide.
