

COVID 19 - We Respect Your Health & Safety

February 4, 2022

RE: COVID 19 Health and Safety Pandemic Protocols

Dear Friend,

Everest Health & Life Insurance Company LLC holds your health, safety and privacy in the highest regard. For this reason, we feel it is important you know our company takes pandemic safety protocols seriously while continuing to conduct its business on behalf of its current and prospective clients.

If virtual visits via phone or video would make you more comfortable please let us know. We have extensive knowledge and experience in this form of communication and would be happy to accommodate your personal and technical needs.

For in person visits, we are pleased to yield to your masking and social distancing preferences. Further, we understand there are many different opinions on the subject of 'vaccination' but ultimately feel there is common ground for a mutually respectful meeting. **Informatively, our agents are fully vaccinated and boosted.*

Thank you for your time and consideration.

Sincerely,

Kenneth A Charbat
