Large Jute Cross body

This stylish and Eco-friendly large cross body bag is made from jute, a natural plant material, and has a leather-accented, removable 56 inch extendable strap as well as leather accent straps on both the front and back of the bag. This bag features a snap closure; (1) interior zipper pocket; (1) interior open pocket and (2) open exterior pockets. It measures 16"L x 17"H x 4.5"D.

The relaxed and undefined look of our bags comes from tumbling the recycled jute fibers several times which also assists in creating a soft and luster feel to the bag. Bag features: an interior zipped pocket, an interior open pocket, (2) exterior open pockets; cotton lining, and long extendable straps suitable for any body form.

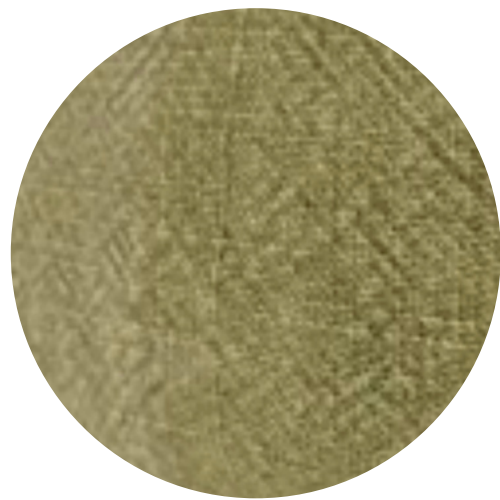

DISCLAIMER: Due to the recycled nature of these bags, there will be color variations as well as natural fabric imperfections in each bag, no two bags are the same

ABOUT ME

My name is Nicole and I am the founder and owner of Bumble Bees and Bunnies LLC. I am a curated boutique specializing in handmade, small batch, organic, eco-friendly, USA, women owned, and socially good baby clothing. My story is simple yet exciting....Rachael, my daughter, became pregnant and the search for socially good baby clothing began. During my search I found the need to bring to the market place USA made, organic, small batch, eco-friendly, socially good baby clothing. With over 20 years of retail experience, Organic Baby Clothing was a great start... The success and support for Bumble Bees and Bunnies LLC after over a year has led to the expansion into handmade Totes.

”

Hi! I just wanted to send you guys a quick message....we purchased a swaddle and some burp cloths from you guys about a year ago now when I was pregnant. It was the brown bear print. We have used this swaddle more than any other and still use it to this day and my baby is about to turn one.

The swaddle still looks almost brand new, minimal to no pilling. It still feels as soft as it did when we bought it too. I just wanted to let you know cause I'm so impressed haha...we will only be buying swaddles from you guys when have another baby! haha

Success Stories/ Reviews

I have an eight-month-old little girl and all she wears is Bumble Bees and Bunnies! I love the swaddles, burp cloths, and especially the onesies. The organic material is so soft and the clothes are true to size, and the sayings are to die for; SO UNIQUE! This company is truly amazing, and I would recommend it to anyone who has a little one or who is going to expecting.

I have purchased many things for gifts for friends and family. Love the quality of their products and they have a nice selection of baby outfits. I would recommend them to everyone.

Sincerely,
Susan

Awesome baby clothes! Whenever I need a baby gift I visit them at one the Farmers Markets or ship from their website to my family and friends out of the state. Everyone loves the little outfits and blankets I send. The owner is extremely helpful and so nice. Love to support a woman owned business too.

It's always smiles with Bumble Bees and Bunnies. It's the cherry on top of the entire shopping experience. With them you get the quality and cuteness in one bundle. My daughter and I always leave happy. I highly suggest taking the time to support local business and shopping with these amazing folks!

Best local brand for baby clothes. If you care about going the extra mile for the little ones. Bumble Bees and Bunnies is where to go for baby clothes. They have adorable onesies made from organic cotton and they are honest about their sourcing. The ladies that own this business do it out of passion and love and it shows. I've been a customer since they started and I keep going back. The clothes are durable and don't pill or fall apart even after the abuse of a muddy toddler and lots of washes. Then clothes are worth every penny!
