ARGENTINA PATAGONIA & LATAM - AUSTRALIA - CANADA - CHINA - INDIA -
EEUU.

Dear,

Am so glad, we can and will become Clones, Twins or front & back of oneself
Team due we can become very very explosive like dinamite, together with a
solid plan synergy strategically planned we are to WIN WIN Mate,

**Based on our conversation and topics we talked yesterday, let me please
list them to focus in coming stages, plan accordingly and research all
need it !!!**

- FOCUS, ONE ITEM ISSUE INITIALLY, EVEN IF SMALL but TRASCENDENTAL
FUTURE CONCERNS TO THE ENTIRE PROJECT, MASTER-PLAN...

Based on Our / Yours & mine VISION of the Planet Mother Earth future
concerns, in need demands of water H2O, Food, Crops, cattle, Energy, Pristine
Oxygen, Sustainable Environmentalist oriented Organic Production of All
kinds ...

Along the last Technologies, BLOCKCHAIN, CRYPTO CURRENCIES, Etc. etc.

<https://www.youtube.com/watch?v=RK9Cm2j28FQ>

- 1st) RESEARCH, Plan & strategy ... China spread for generating Demand for water & sign several agreements contracts,

<https://www.facebook.com/martinofarrell/videos/10215194564890629/>

El centro de gravedad mundial sedesplaza hacia el continente asiático - LA NACION -

<https://www.lanacion.com.ar/2181974-el-centro-de-gravedad-mundial-se-desplaza-hacia-el-continente-asiatico>

- 2nd) Small Issue to organize, start in Argentina, FOCUS in **Water bottling plant for example**, to say mentioned one choice out of the entire ones of the masterplan. We got the Water natural resources, spring water holes, studies done, some already producing, with yearly sales locally markets and some others are in ground zero to seed capital initial investments, so we can grow rapidly amazing due network, works done, jobs already undertaken so we can make incomes soon, fast,.. needs capital, investment to buy, purchase acquire them and seal deal,

- 3rd) We need to make an IMAGE, Brand for international commercialization, (I got one Brand & packaging, as well THE MOST RELEVANT CONCEPT) for so as to become world known very very quickly via airline companies, as well niche markets like EAU, ASIA all, & EUROPE, EEUU etc. Traders and sales in place for this, only need capital, working capital, investment to next stages and ROI BIG TIME INCOMES PRODUCING..

- 4th) Land & Real Estate, take the opportunity that Argentina and region is under valued NOW, lowest prices since 30 / 40 years, ARGENTINA is today bankrupted almost so taking buying this time the chance choice makes ourselves double profit, buying cheap, and once values increase sign future concerns due the world needs all what we got here, space, tremendous enormous sizable ranch estancias like nowhere else worldwide, at prices very very low now.. developing and food producer for profits ROI years to come, plus conservation preservation concepts like saving the raw diamond without cutting it... only producing developing 10% of land to acquire makes enough lots profitable ROI incomes to re pay funds, investment debts etc or mix combo..

- 5th) Topics we talk over to consider future concerns ARGENTINA for the World, ASIA, Australia, Europe, EEUU, India & CHINA, etc.

H2O water Bottling plant, acquisition of all water spring holes with most pristine quality resources, & develop our already masterplan image, packaging spread into world markets, airline companies, & governments worldwide..

Food Crops, cattle, herbs, wines, beers,

BTC & Blockchain Blockchain to generate more than \$10.6B in revenue by 2023 !!!

<https://www.computerworld.com/article/3237465/enterprise-applications/blockchain-to-generate-more-than-106b-in-revenue-by-2023.html>
#Blockchain #Fintech #Finance

Real Estate & Land acquisition, purchase of cheap low cost lands available, production organically for food exports, water bottling, lot sub divisions 10% of all the CROWN JEWEL PROPS ACQUIRE, SAVINGS AND INCREASING VALUE FUTURE GENERATIONS CONCERNS preserving and with Environmentally oriented minds,

Tourism & Migration of Wealth People from places like Silicon Valley, Palo Alto, UK, Aussies, Irish, etc.

Cannabis Organic production for Medicine, Labs willing to pay and buy production due today 40% of LABS worldwide are jumping into Cannabis for replacing the old fashioned medicines,,, Plus for combo Beer & young youth playgrounds worldwide..

Cannabis, Marihuana read below at the end email and organic production, plus, argentina article,

El cannabis ya cotiza en Wall Street mejor que el oro y el bitcoin <http://www.ambito.com/936513>

<https://www.ccn.com/more-ridiculous-than-bitcoin-pot-stocks-go-parabolic-as-crypto-markets-cool/>

Window - Door from your side, Not to use the 300 B from the HK Consortium, but to keep in mind future concerns we can combine them with ours, 500 B as well, DUBAI, EAU + Singapore & HK..

- 6th) As a begin or initial purchase we got for example for consideration of the Board, 2.300 hectares of land, with River Chubut (one top river for irrigations, bottling, etc etc) cutting the land in 2, already wines grapes production, 5.000 bottles of top wine productions every year sales of every bottle becomes an issue normally, we need to up grade and plant more for so as to increase those sales, food production of cattle, parsley, wheat, chia, olive oil feasible to plant too, etc. alfalfa for sheep and cattle winter times takes place already, as well home site with sort of Hostel in summer time for visitors guest wealth clientele already exists.. adding some more incomes, cost value for sale today u\$d 1,5 million, meaning each hectare cost u\$d 650 / One hectare gots 2,39 acres of land..

or/& Water Spring holes in Argentina, Uruguay ready with some Bottling Plant already built and with enough sales for incomes right on, We invest, Buy,

and are already bottling water & making solid sales in local markets, we can improve, increase the production & bottling to spread export to world markets in demand, needs now..

- 7th) We got team in place for all down here., just so as to be consider we got an inter-disciplinary group of Pro's in place for all needs future and actually concerns

- 8th) WEALTHY, VIP, CAPITAL ARGENTINA PLAYERS, we got list of them and most relevant strong ones, some over the u\$d 15 Billion incomes yearly, so is a matter who we want to join and play with..

- Horst Paulmann www.cencosud.cl / located in 5 countries in Latam and we already been in conversations with him, to take him into INDIA, due his Jumbo supermarkets got the Logo as an elephant, so we design a plan like slogan saying an Elephant from Argentina is arriving into India...

- Depinder Lamba, Indian but 40 years leaving in Argentina now, with Governors from INDIA and network worth several lives of ourselves,

- Nicolas Caputo, right hand of the actual President, Private companies, we are in permanent communications..

- Luis Caputo, cousin of above, ex President BCRA Central Bank of Argentina, as well..

- Mr. Eduardo Eurnekian, big shot, only private digital bank inside Argentina, plus owners of all airports, inside Arg. and several ones internationally, constructions company, several billions worth guide..

- Enrique Eskenazi, top player in Energy inside Arg. plus 5 states banks inside Arg. multi billion family..

- Nicolas Dujovne actual Finance Minister of Arg. with along Mr. Norbert Feldman, close friend of Xi-jiping Chinas President and ministers, we travels visits oftenly, as well been ambassador of Panama & Chine for the last 35 years, extremely well connected both..

- Rogelio Frigerio, politica family for the last 3 generations, he might Become 2019 president of Argentina... along with actual Governor of Buenos Aires province state, Mrs. MARIA EUGENIA VIDAL..

- Mr. Alfredo Olmedo, Deputy Senator of SALTA, THE major province producer of crops in all Argentina, with more than half a million hectares under 3 crops a year, soy bean, corn & sorghum for example, Millonaire family that I fish & hunt

in their territories since 1990's ...

- Pablo ZOLTAN FRANCK, Budapest Honory Consul, ambassador owner of the LITHIUM TENNANTS, 152.000 hectares, over 400.000 acres of lithium, gold, copper, silver, iron, uranium, etc etc. vaulted over 300 Billions..

MASTERPLAN, GOAL, SUCCESS is to Do all possible to HELP & DEVELOP ARGENTINA ORGANICALLY ORIENTED, BASED ON OUR STRATEGY PLAN & RESEARCH !!!

How to Make Quality Cannabis, and the Role of Organic Farming

Today, Canada became the first G7 country to legalize recreational cannabis nationwide.

With that, and as more U.S. states enter what could be a **\$95 billion market** by 2026, product quality will become an increasingly important differentiator.

But what makes a high-quality cannabis product, and what role does organic farming play in this?
