Presidents' Message

Hello Cruisers

I would like to say thank you to everyone that attended the first meeting of the year. We have renewed our contract with the Elk's lodge for our 2022 meetings. I'm really excited to be back as your president. Please feel free to make any suggestion you think will help us move in a positive direction. It is your club and we look for your input.

I need to remind everyone of a couple of items, renewal of membership are now due and payable, \$40.00 annually. The dues must be received by February 28th, after that the dues are considered late and there will be a \$15.00 reinstatement cost.

We are still looking for members to organize runs if you would be interested, please contact one of the board members. Also please contact Brad with stories about your cars or projects for the news letter. Note to the members remember Valentines Day is coming soon. A major event is coming, Kool April Nights! So start making your plans now for a fun get- a -way, fellowship, food and plenty of laughter.

A special thanks to our board members, they give freely of their time and take the job of representing the Club and members very seriously.

Keep the rubber side down.

Mike Phillips Sr.

Sign Ups are now open for rooms for Kool April Nites in Redding.

This year the show dates that we have reserved are April 28 thru May 1. The cost is 135.00 per night plus tax.

There are a least 20 rooms available, possibly up to 25.

If you are interested in a room please contact Tammy Robinette at 916-803-2910 for a room reservation, please do not call the hotel for I am working directly with the owner and he is giving us a special price which will not be honored if you call in your own reservations.

Car Facts

1. The average Bugatti Veyron owner apparently owns **84 Cars, three private jets, and a yacht**. Unbelievable.
2. The top speed at the first **automobile race in the United States** was 15 MPH. It's a wonder folks were even able to stay awake during the race.
3. Volvo is **Latin for "I roll."** Do you roll in a Volvo?
4. 35% of the world's population drives on the left side of the road. The other 65% is correct.
5. With a top-speed of 277.8 MPH, the Koenigsegg Agera RS is currently the fastest production car in the world. With faster cars being churned out virtually every month, who knows how long it'll hold onto this record.
