DIFFERENTIATORS

- Collaborative by design. Clients stay involved from planning to implementation.
- Tech agnostic. Solutions are driven by client needs, not platform loyalty.
- Work directly with the people building your solution. No middle layers.
- AI improves our internal efficiency, not your final experience. Everything delivered is human-made.

CAPABILITY NARRATIVE

At stradaji, we help organizations “right size” their technology ecosystems to run better and scale. We journey end to end in the software development lifecycle, ensuring that what we solution helps our clients eliminate silos, surface real-time insights, and reduce operational friction. We equip leaders with clean data, modern tools, and a clear path forward.

CORE COMPETENCIES

- Technology strategy and transformation
- Cloud architecture and app modernization
- Data analytics and business intelligence
- AI strategy and governance

PAST PERFORMANCE

Non-profit Zoo & Aquarium Organization (2024-2025)

Role: Strategic implementation partner

Scope: Defined technology strategy & roadmap. Consolidated siloed analytics systems into a unified reporting suite.

Impact: Deeper business insights to improved decision making that enabled business growth.

Publicly Traded IoT SaaS Company (2023-2024)

Role: Data strategy consultant

Scope: Defined data strategy, governance, and multi-year roadmap. Implemented data analytics, machine learning, and genAI solutions.

Impact: Reduced reporting latency by 67% and enabled self-service dashboards for internal product teams.

State-Level Department of Transportation Agency (2023)

Role: Systems modernization subcontractor

Scope: Defined strategy to modernize legacy business apps/processes and business intelligence solution.

Impact: Increased operational efficiency, cost savings, business agility & scalability.
