## SESSION INFORMATION & STYLE GUIDE

### How to prepare for your senior photo session:

Thank you for considering me to document this incredible time in your life! . You may be wondering what to expect and how to prepare for your session so I've got a few tips and tricks for you!

**Hair and Makeup:** I recommend having professional hair and makeup done the day of your session. The "no-makeup" makeup look is perfect for someone who doesn't normally wear a lot of makeup. If you are a regular makeup wearer,, work with your stylist to create a look that complements your favorite features. I do not recommend wearing products containing SPF (but only for your session) and please avoid hi-lighter.. Products containing shimmer can actually look very bad on camera.

**Time of year:** Many seniors request the fall to have their session done but I actually recommend mid to late summer. The light during this time of year is incredible. My October dates book very quickly and the leaves can be gone overnight with one wind/rain storm. Please keeo this in mind when booking. Also- I use photo editing software so if you have your heart set on "fall leaves" I can always add them in post production.

**Pets/animals:** Yes, your doggie can come to your session! Yes, I can come to your farm to capture you with your horse or other livestock. Contact me via email at [lynn@lynncaudell.com](mailto:lynn@lynncaudell.com) to discuss fees and policies relating to animals.

**Posing:** Don't be nervous about your session! I promise I will pose you to flatter you in the best ways. Some poses may feel awkward, but trust me, things look different from certain angles of the camera and only I can see the result through the camera.

**Outfit selection:** Depending on the session you choose, you may be able to change clothes at the session. I have a pop up changing room (unless it's really windy!) for you to change in if we are on location. I have a private changing area at the studio for in-studio sessions. Please choose outfits that flatter your body. If an outfit is a little big, I can oftentimes clip them to make them fit better for the photos. If something is too small, I can't make it look more flattering.
