

If Jesus Didn't Rise, Christianity Is a Joke

Let's be honest: if Jesus Christ didn't rise from the dead, then Christianity is nothing more than two thousand years of wishful thinking. No resurrection means no hope, no forgiveness, no church. Just a failed Jewish rabbi who died a brutal death and stayed dead.

But if He *did* rise...

Then everything changes.

He's not just a moral teacher or spiritual guru.

He's the **undefeated King of Death**. And your entire life should revolve around Him.

So let's talk facts. Let's talk history. Let's talk about why the resurrection of Jesus isn't just a hopeful idea — it's the most reasonable explanation for a series of undeniable events that shook the ancient world.

Evidence #1: The Empty Tomb

Jesus was crucified publicly. His death wasn't vague or metaphorical. And His body was placed in a guarded tomb. But by the third day, that tomb was empty.

There were no bones, no shrine, no grave site for mourners to visit. If Roman or Jewish authorities had the body, they could've dragged it through the streets to silence the movement. But they didn't. Because there was nothing to show.

Some claim the disciples stole the body — but really? These were terrified men, hiding behind locked doors. They couldn't stay awake to pray, and now we're supposed to believe they turned into ancient Mission Impossible agents overnight? That doesn't track.

Evidence #2: The Eyewitnesses

Over 500 people saw Jesus alive after His crucifixion. They didn't dream Him up. They talked with Him. Walked with Him. Ate with Him.

And this wasn't mass hysteria. Hallucinations don't happen to crowds across different places and times. The Gospel accounts name names, inviting fact-checking from those still alive when they were written.

And here's the kicker: many of those eyewitnesses were tortured and killed for refusing to deny what they saw. People don't die for a lie they *know* is false.

Evidence #3: The Explosion of the Church

The same city that saw Jesus crucified also witnessed the birth of the Church. Within weeks, thousands of Jews — in the very place where Jesus was executed — began declaring He had risen.

This wasn't some backwoods myth gaining traction far away. This was ground zero. And instead of disproving it, people joined the movement — because they encountered something undeniable.

Something happened in Jerusalem. Something so explosive it turned cowards into martyrs and shook the Roman Empire to its knees.

Evidence #4: The Enemies Converted

James, Jesus' own brother, thought Jesus was insane. But then he saw the risen Christ — and became a pillar of the Jerusalem church.

Paul went from hunting Christians to becoming their greatest advocate, writing much of the New Testament.

These weren't fanboys. They were skeptics and enemies. And something transformed them from opposers to die-hard followers. What was it? The same thing that transformed everyone else: they met the Risen One.

Evidence #5: The Resurrection Wasn't Convenient

If the disciples were making this up, they were terrible storytellers. In a male-dominated culture, they claimed women were the first witnesses — a detail that would discredit their story in that era.

They portrayed themselves as cowardly, confused, slow to believe. They didn't script this for PR. They recorded what actually happened.

So, what does it all mean?

If Jesus didn't rise, Christianity crumbles. But if He did — and the evidence says He did — then He is exactly who He claimed to be:

The Son of God. The Savior of the world. The Firstborn from the dead.

And He's not waiting for your opinion. He's calling for your allegiance.

The resurrection isn't just a metaphor. It's a **verdict**.

Death has been defeated.

Sin has been paid for.

The grave is not the end.

The real question isn't *if* the resurrection happened.

It's whether you'll keep pretending it doesn't matter.
