INSPIRED PLASTICS

Betty

Did you know most of your plastic isn't being recycled?
Let us collect it and save it from the landfill, all while
protecting our waterways with Surfrider Charlotte!

Every **Saturday 12-4pm in April** Inspired Plastics will be in front of Betty by Moxie in Plaza Midwood, collecting plastic for recycling.

For every **1lb of clean plastic *accepted*** for collection by Inspired Plastics,
Betty will donate \$50 to the Charlotte Chapter of the

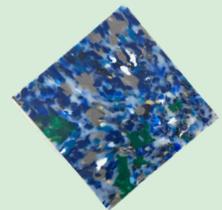

See back to find out how to participate and get your plastic counted for the donation.

Support our work by buying our unique art and handmade
FUNctional products!

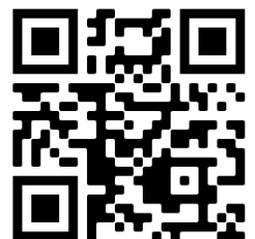

Inspired Plastics is on a mission to reduce plastic
going to the landfill by upcycling it into unique art,
and small and large functional products.

We also offer services to help you or your organization reduce
your waste footprint and reach towards zero waste.

Contact us to:

- Set up your own campaign,
- Order in Bulk or Commissions
- Schedule a waste audit
- Sign up for a Zero Waste workshop, or
- Hire a consultant to help your business recycle better

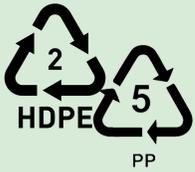

AM I RECYCLING RIGHT?

In Charlotte, less than 10% of all plastic waste is recycled, let's change that by recycling better and collecting your plastics!

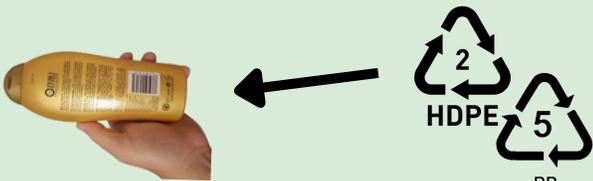

We are collecting only cleaned and label free #2 and #5 plastics, such as:

- Mesh produce bags
- Mailing packages
- Bottle caps
- Tofu tubs
- Yogurt containers
- Plastic straws
- Takeout food containers
- Plastic lids
- Pill bottles
- Beer rings
- Shampoo bottles*
- detergent bottles*
- Milk and juice bottles*

*These items are also recyclable in your residential green bins

Wondering how to tell what number plastic ?

Look for one of these symbols normally on the bottom of the container in tiny print.

What do we mean by clean and label free ?

These are manually recycled. Remove the paper label with a little heat from a hairdryer then wash it clean or in the dishwasher so there is no food residue, etc.

Confused? We will be in front of Betty by Moxie, 1219 Thomas Ave, **every Saturday in April** between 12pm-4pm to show you:

- how to tell what number plastic it is,
- how clean the plastic must be,
- how best to remove the labels and,
- some of the wonderful products we can make!
