

## Andre & Shonda Vierra

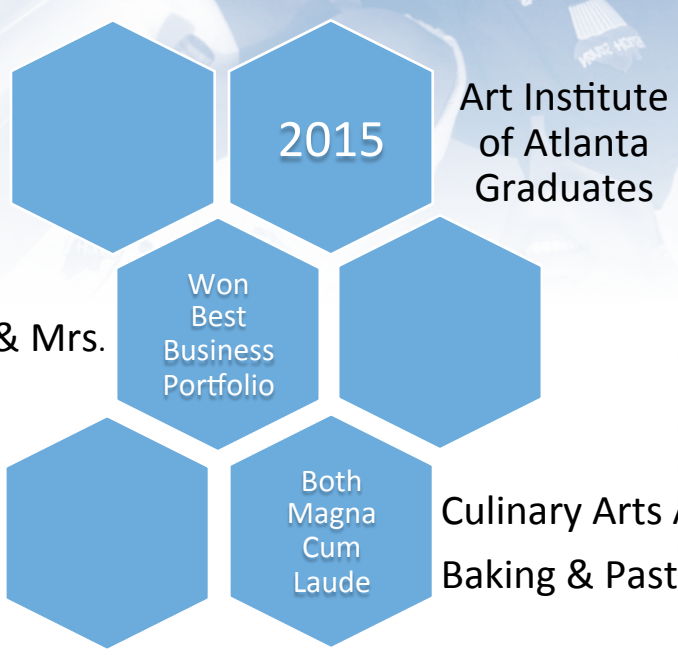

Born and raised in Providence Rhode Island, Andre & Shonda are a happily married chef couple that is passionate about great food. Specializing in pop-style events Andre delivers the most amazingly creative quesadillas that have his fans raving, and Shonda has perfected the art and style of dessert with her beautifully sweet cake jars. Continually inspired by the memories of home cooking from their grandmothers, they're on a mission to create the same sense of love and comfort that they've always experienced eating at their Nana's Houses.

*"My grandmother made everything from scratch, so as a kid I enjoyed helping her. I wish I were able to get more of her recipes. I want people to come to us and feel at home with good food and love just like I was able to feel from my nana."*

*-Shonda*

*"We're a great team. We have fun, and we love what we do! I like to be comfortable so that's how I cook. I think that's why my focus is on sandwiches and perfecting that craft. My grandmother was the master of making simple foods to perfection. And it seemed effortless but it was just love. I want that in my food."*
