**STELPRO** Electric Infrared Heaters commonly referred to as a "patio heater," the SIRH infrared radiator makes it possible to extend outdoor events during the cooler seasons. This sturdy, weather-resistant heat radiator made of aluminum and with a stainless-steel grill is designed for applications where significant air temperature exchange occurs. STELPRO Electric Infrared Heaters range from 5,000 to 20,000 BTU.

**STELPRO's** affordable ARUH/AHSU unit heaters are not only powerful and reliable but also delivers a very high heat output. Its sturdy design makes it the ideal solution for open areas such as garages, workshops, commercial spaces and construction sites. With or without a built-in thermostat, ARUH /AHSU provides instant heat that you can control with adjustable flaps. Moreover, the unit can be installed on the ceiling or wall. ARUH/AHSU unit heaters ranges from 6,000 to 200,000 BTU

**°STELPRO**  
360 comfort

The Dragon by **STELPRO** recycles residual warm air that has accumulated at the ceiling, mixing it with the cooler air below. The result? Uniform air temperature and energy savings. The Dragon offers an output of 6,000-34,000 BTU range, depending on the model, and offers voltages ranging from 208V to 480V. This unit can be ceiling surface mounted or ceiling recessed, suspended at a minimum of 8-feet from the floor. The Dragon is well suited for building entryways, stairwells, warehouses, garages, workshops and hallways. Nothing beats the power of The Dragon!

The Oasis by **STELPRO** wears its name well. It transforms any room in which it is installed into a small tropical paradise. As quiet as it is refined, it blends seamlessly into any decor. Its ultra-precise built-in electronic thermostat and boost mode control a room's temperature setpoint quickly and easily. The Oasis is perfect for smaller rooms, including the bathroom, hallway or entrance hall. The Oasis ranges from 3,400-6,800 BTU.

**STELPRO's** innovative Persia Heating Cable Mat adds comfort and a touch of luxury to your home. Silent, efficient and unobtrusive, the Persia mat is the ideal floor heating system. It can be installed with most types of floor coverings and is available in a wide range of standard and custom sizes. Furthermore, the electromagnetic fields are almost non-existent with the Persia heating cable mat, meaning it is safe for toddlers and the whole family. Unique to STELPRO, the membrane is made from a durable, nonwoven fabric that's easy to install and protects the cable from damage from tools during installation. This feature sets Persia apart from all other heating mats on the market.

**SDH Electric Duct Heaters** range from 1,500 to 238,000 BTU. MUA Make Up Air Units range from 5,000 to 68,000 BTU. SFE Make Up Air Units range from 2,500 to 102,000 BTU. Continuously modulating heating elements on the MUA units allow the unit to heat fresh air at a lower cost SDH and SFE have staging or modulating options.
