

Advanced Room UV Air Sanitizer

GermZone 100 is a new advanced room air sanitization system. Utilizing our patented biocidal technology and a quartz-based photolytic UV-C reaction chamber, viruses and bacteria are rendered inactive. This includes influenza and SARS-CoV-2 (the virus that causes COVID-19).

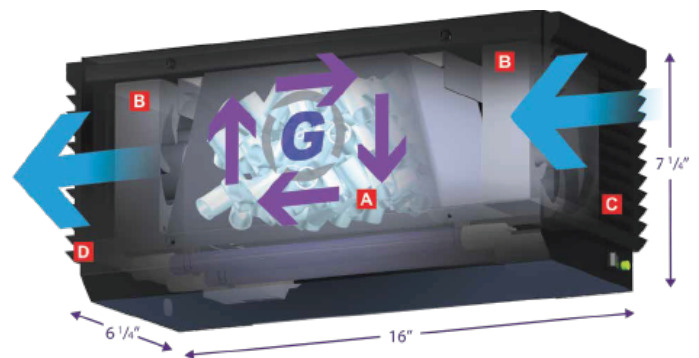

The reaction chamber is completely shielded to block all UV-C light emissions, making it safe to operate in any occupied space. Installation is simple with the provided wall mounting bracket and 115V power cord which plugs in to any standard wall outlet.

Create a safer indoor environment free from harmful contaminants.

Effective Air Disinfection for:

- Schools
- Hotels
- Offices
- Public Buildings
- Nursing Homes
- Restaurants/Retail
- Gym
- Commercial Buildings
