

Aftermarket, OEM, Replacement and Specification

Heating and Cooling Coils

H2O Series

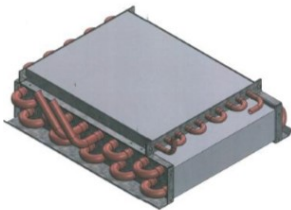

Hot Water Duct Coils are in stock for same or next day pick up or shipment from Farmingdale NY. Designed at .25 air pressure drop and low water pressure drops these coils produce realistic field results! Sizes range from 12.5" x 12" to 23.75" x 48" face area. **New 7.5" and 10" high units will be in stock in April.** You need the right coil for your duct application, just call us and we can run performance to meet your customers needs.

HPX Series

High Performance Cased Hot Water Coils are in stock for same or next day pick up or shipment from Farmingdale NY. *Higher BTU's lower air pressure & water pressure drops. BTU Ranges from 20,000-135,000.* Built to fit most industry air handlers.

H2O #	Width"
HPX-2-1425	14 1/4
HPX-2-1750	17 1/2
HPX-2-1850	18 1/2
HPX-2-1975	19 3/4
HPX-2-2125	21 1/4
HPX-2-2250	22 1/2
HPX-2-2350	23 1/2
HPX-2-2450	24 1/2
HPX-2-2650	26 1/2

Custom Coils

Hot Water, Chilled Water, Steam, DX

New Quick-Ship - 10-15 Day Production

Standard Lead time is 5-7 weeks at this time.

High Static Air Handlers

with VFD Pressure Sensing

Power & Savings -All units come with a VFD drive which allows our built in pressure sensor to increase the speed of the fan to maintain design CFM and allows big savings on constant volume airflow applications. **Versatility** - The **HLV-AH fan coil** can be used with a boiler, dual purpose hot water heater, or heat pump for utilizing conventional duct systems. Electric Heat Options are available. Cooling can be done with a chilled water or refrigerant coil. **Superior Fan Assembly** - When used in new construction or retrofit installations with conventional duct systems, the higher static pressure provides for better air flow on long duct runs. **Compact** - Attractive powder coated cabinets can be located in the Highboy, Horizontal or Counter flow position and use considerably less space then the conventional style furnace. **Low Maintenance Cost** - Quality components are selected for "off the shelf" replacement reducing operating and maintenance cost. Our single side access design reduces time in the field for replacements. **Quality Assured** - All units are CSA and CE approved, with all water heating coils Warnock Hersey accepted for potable water service.
