JULY 2020

TRAK™

The Trak modern commercial ceiling fan collection will update your indoor and outdoor spaces including restaurants, hotels, and sports facilities. The Trak ceiling fan is designed and engineered with a commercial grade motor and extruded aluminum blades for a long lifespan and optimal airflow in large, open spaces. This commercial ceiling fan is available in four sizes, three versatile finishes, and an LED light option to best fit the size, style, and lighting needs of your space.
