please forgive me.....one more question. What is the BOE policy regarding bidding? What is the dollar threshold above which bidding is required?

I don't need the entire policy, just tell me the dollar amount above which bidding is required. I am speaking to a report later today and would like that information for our discussion.

Thank you, of course.

Best regards, Sal

Thank you Sal, let me know if you need anything else. Can I ask what paper you are meeting with?

I am meeting with the former Mayor, Anita Duggatto, who is expecting a call from Eugene Driscoll of the Valley Independent Sentinel. That in an online newspaper that is widely read in the Valley communities of Derby, Ansonia, Shelton and Seymour. I have spoken to other authorities but cannot disclose more at this time. I was also told by the Dan Brachlin, the Managing Editor of the Danbury News Times, that we was going to assign a reporter to the story but I have not heard from that reporter.

Josh, unless I missed it somehow, I did not see the contract amount needed to require a bid from the Region.

There is a \$3,000 and a 10,000 threshold. 3-10k we should have price estimates from vendors. Over 10 requires the more formal bid process.

Sorry, only other factor is if the vendor is already part of a bid process like an approved state bid list. If the vendor is on an approved bid list we could work from that and not have to do an independent one

Thank you, Josh. I was just advised by someone at City Hall that McLiverty transferred his house to his wife's name only. Usually, a power of attorney is sufficient to allow someone to sell the house on your behalf if you cannot attend a closing. An outright transfer to a spouse when you may be subject to civil lawsuits or criminal acts is often challenged as a fraudulent conveyance, a conveyance designed to shield the asset from being available to creditors.

Thank you for the bid thresholds.
