

BAR OPTIONS

cash bar

Full bar offered for your guests to purchase drinks at our menu pricing. A full bar includes all we have to offer in our drink packages, including wells, calls and premium liquor selections. Special requests, such as a cocktail to match your theme can also be accommodated.

open bar

The open bar will allow your guests to drink freely while you cover the expense of their drinks. You choose the drink package to be offered, or offer a full bar and set a dollar limit. Drinks are put on your tab per our menu pricing as they are ordered.

switch bar

This allows you to pay for an open bar for a limited time, or budget, and then switch to a cash bar. This option keeps the bar available to guests once the open bar has ended. There are many ways to configure the switch option, such as having drink tickets allocated.
