Cairo - Facts

Founded on the site of Babylon, near the ruins of ancient Memphis, Cairo has been the largest city in Africa for centuries. Modern Cairo encompasses many former cities and their monuments: the pyramids of Pharaohs; early Christian monasteries and churches; Salah Al-Din's Citadel; mosques of the Mamluk and Ottoman sultans. Five thousand years of culture are concentrated here, at the centre of three continents. Travel through time in a city that is a living index to civilization. Enjoy the comforts of a cosmopolitan twentieth-century capital.

Day 2 - Cairo (B/D)

Today you will enjoy a visit to the Pyramids and the Sphinx with a camel ride included. The Pyramids were reckoned by the Greeks to be one of the Seven Wonders of the World. A single pyramid is built of 2,300,000 blocks, each weighing an average of two and one-half tons. In the face of such immensity, one cannot help but feel the wonder and awe that so many writers and artists have sought to convey over the centuries. The Cheops Pyramid is especially interesting since its interior burial chambers are open for inspection by the public. Not far from the Pyramids is the Great Sphinx of Giza, which dates from the time of Chephren (2620BC). Hewn from natural yellowish limestone and standing 65 feet high by 187 feet long, this unforgettable statue combines the head of a Pharaoh with a lion's body.

Return to the hotel with the afternoon at leisure.

Tonight enjoy a Nile Cruise dinner with return transfers included.

The Luxor Temple was built largely by Amenhotep III and Ramses II, the temple served as a setting for the rituals of the festival, which was held to reconcile the human aspect of the ruler with his divine office. The Karnak Temple was erected in 1928 BC as a small shrine dedicated to Amun, god of Thebes.
