

Presented by [EarlyEd.ai](https://earlyed.ai)

Leading AI Adoption and Policy Micro-credential

6-Sessions - Via Zoom

Every Thurs., Oct. 2- Nov. 6

3:00–4:15 PM ET

Make-up options available for Weeks 1–6.

For questions email info@earlyedpro.ai or go to <https://earlyed.ai>

Week 1 – Why AI Adoption Matters in Early Childhood

Discover how AI is shaping early learning around the world and why leadership matters now more than ever. Identify your program's starting point and set your vision for AI adoption.

Roadmap Focus: Define your AI vision statement and success goals.

Week 2 – Ethics, Safety, and Responsible AI Use

Explore the ethical side of AI: privacy, bias, equity, and child safety. Learn to evaluate tools before adoption.

Roadmap Focus: Establish your guiding ethical principles and safety standards.

Week 3 – Global Perspectives & Emerging Policies

See how countries, states, and agencies are approaching AI in education. Learn what frameworks and policies can guide your own approach.

Roadmap Focus: Select key policies and regulations that will shape your program's AI guidelines.

Week 4 – Building Staff Buy-In and Capacity

Develop strategies to introduce AI in a way that fosters trust, curiosity, and responsible experimentation. Learn how to create training plans for different skill levels.

Roadmap Focus: Map your staff engagement and training approach.

Week 5 – Designing and Implementing AI Policies

Turn your vision and principles into practical, role-specific guidelines for AI use in your program. Learn how to communicate and maintain your policies.

Roadmap Focus: Draft your AI policy framework and implementation plan.

Week 6 – Finalizing Your AI Adoption Roadmap

Bring together all your roadmap elements into a clear, actionable plan. Share with peers, get feedback, and leave ready to lead AI adoption in your program.

Roadmap Focus: Complete and present your AI adoption roadmap.
