ARCATA PLAZA

ARCATA COMMUNITY CENTER

THE EARTH FLAG IS ON TOP IN ARCATA, CALIFORNIA

Last November, voters in Arcata passed Ballot Measure M, which mandated that the City of Arcata would fly the Earth flag at the top of city-owned flagpoles, above the U.S. and California flags. This applied to flagpoles at City Hall, the Arcata Plaza, and the Arcata Community Center (all pictured above)

The City Council certified the election results on December 15, and had city staff rearrange the flags.

Over six months later, the Earth flag continues to fly at the top, although City officials have filed a suit to have it lowered below the U.S. flag. Arguments will be heard in Humboldt Superior Court in August or September.

Here in Arcata, we are proud to Put the Earth on Top!
