Subject: RE: [External] Narcan Question

CAUTION: This email originated from outside of the Department of Children and Families. Whether you know the sender or not, do not click links or open attachments you were not expecting.

Good morning! Thank you for reaching out KC! I am not sure we have exactly what you are requesting, but we do offer some Spanish materials.

We offer our website in English and Spanish www.narcan.com (top left select language). Once the language is changed it completely changes the language on the entire website.

We also offer a Spanish educational materials, including a QR code on the Spanish poster that directs someone to the Spanish language video.

On the carton itself, we do not have a QR code unfortunately, but I will share this idea with our innovation team. Always appreciate the questions so that we can continue to evolve and deliver solutions that help aid in education, awareness, and access.

Please let me know if you have any questions or want to discuss.

Warm regards,
Amanda

Subject: [External] Narcan Question

Good afternoon,

I hope you are well this afternoon.

I am hoping you can answer a couple questions posed to me from one of our hospital distributors.

The questions; “Does Narcan come with overdose recognition and response information in languages other than English?” and “Is it possible to get them that way for Spanish and Creole- maybe using a QR code or within the flap or back of box?”

I think it’s a fantastic idea.

Thank you in advance and take care

Warmest Regards,

“You are always one decision away from a totally different life”-unknown
