Good morning,

Just checking in to see if any of you will be attending RxSummit next week? I will be there 4/21-4/23. Would love to connect in person if you are available.

Thanks,
Amanda

Subject: Thank you & Follow-up Items

Greetings, DCF Team,

It was an absolute pleasure meeting you all this week. I greatly appreciate the conversation that we had and the shared commitment to the work we are all trying to accomplish together. I look forward to working with you to support your ongoing efforts to make sure naloxone is where it needs to be when it is needed most to save a life. Please reach out to me if you have any questions or need anything. I am proud to be a resource to you and look forward to also helping support your amazing programs any way that I can. Please find the attached customer report. This report highlights units, location of units shipped at the zip code and county level, class of trade data (based off

SAMSHA reporting) and county heat maps. We are always looking for ways to improve this report so please share any insights of what you would like to see. I can also run this with the dollars spent as well if needed.

Additionally, we spoke about the tracking pilot that we are currently offering that is designed to help you all even better understand the naloxone distribution in your state beyond just where the product was shipped to.

Overview: NARCAN® Nasal Spray Distribution Across Zip Codes

Goal: Ensure NARCAN® Nasal Spray remains easily accessible to you and the communities around you.

Value: Personalized reports will be given to you capturing Naloxone distribution in your state at the zip code level

How: Scan a QR code, generating a form with 2 questions:

1. Name of your organization
2. Zip codes where Naloxone is being distributed and when

How can you support?

- Inform the entities and organizations in your state of this initiative
- Forward email to all entities you feel could benefit from learning more about distribution

I have a PowerPoint presentation that I would like to share with you all on our next call outlining the project a bit more.

Please let me know if the dates and times your team is available in the next few weeks to review. I typically meet with customers at least once a month. Hoping we can set something up the week of April 28th or May 5th.

I look forward to hearing from you and have a beautiful weekend,
Amanda
