Creating spaces for better living.

ATD

# ABOUT US

Angel Tan Design Co. is a multidisciplinary design studio that offers creative concepts for both interior and architectural spaces. We specialize in interior decoration services—enhancing existing spaces through thoughtful, functional, and visually cohesive design. Formerly known as Ramon Angel Architecture and Engineering, and later Mirai Architecture and Engineering Philippines, our rebrand reflects our evolution and continued commitment to design that meets the needs of modern living.

Our design approach centers on preserving the character of a space while integrating each client's lifestyle and personality. We believe that a structure's original framework is worth honoring—but it's the thoughtful layering of purpose, comfort, and beauty that truly brings it to life.

# Design Philosophy

Our philosophy centers on the belief that thoughtful design can transform everyday environments into inspiring havens. By blending functionality with aesthetic appeal, we aim to craft interiors that promote well-being and elevate your living experience. Together, we create spaces that nurture and inspire.

We cherish the history and character of each space. Whether it's an old house, a commercial building, or a modern apartment, we aim to retain its soulful elements. Our design philosophy embraces the beauty of imperfections—the patina of time, the creaky floorboards, and the stories etched into the walls.

Your home should reflect you. We work closely with our clients to understand their dreams, preferences, and lifestyle. From color palettes to furniture choices, we weave your personality into every nook and cranny.

# The Joinery Specialist

With years of experience, we are the go-to experts for all your joinery needs. From designing and crafting custom furniture and cabinetry to restoring historical buildings, our team of skilled artisans can bring your vision to life.

## **Architectural Joinery**

Creating beautiful and functional doors, windows, and staircases that enhance the aesthetic and functionality of any space.

## **Interior Fit-Out**

Designing and installing high-quality paneling, moulding, and custom-built units to transform the look and feel of your interiors.

## **Restoration & Repair**

Preserving the historic charm of buildings through meticulous restoration and ongoing maintenance services.

Our design journey unfolds in three exciting stages: **Concept Design**, **Design Development**, and **Final Design**. We believe in a step-by-step approach, which allows us to weave quality and aesthetics into every detail along the way.

# DESIGN PROCESS

## *Creative Style*

Our style is contemporary, infused with traditional elements and aesthetics. This blend creates a timeless look that honors and embraces diverse cultural identities, resulting in spaces that resonate with history and modernity.

We're not just designers; we're listeners. Your vision matters, and we're here to help you articulate it. Expect constant contact—from the initial consultation to the final installation. Your dream is our mission.
