SCAMMER ALERT!
 This guy is a well known SCAMMER around Sault Ste Marie.
 Back around 2017 or 2018, I hosted him for a night my friend hosted him for a week and nothing added up with him.
 Scammed many with his false stories of being ex forces with ptsd and terminal cancer and was robbed.
 Many gave him money, bought him a new laptop and a bus ticket to a Ottawa treatment facility and set up a gofundme.
 He returned a year plus later with similar stories and gained a larger gofundme "payroll" but skipped town when someone found out he did no service

martinguilbert So funny story. I met this Martin actually at an old age home in Cornwall on July 20 2021, his dying from cancer and could no longer work. The reason for my visit was a charitable one, he had asked me if he could trade his laptop plus a small some of cash for my gaming laptop. I knowing he was dying of cancer, wanted him to enjoy his last moments. So I told him keep the money for your expenses and we'll still do the trade, the only thing I asked for was the laptop back when he died. (his laptop was worth 3000 more 1500\$) I have a YouTube channel and wanted to use my platform to get his voice heard. I still have all the recordings of my interview with him. Before I could post anything he went AWOL, and ran off to Alberta, also telling me that someone had stolen my laptop and there was nothing I could do about it. I'm not saying he's lying. But I am saying he never had a house, only temporary living. Could not work due to the cancer and had no money, only made money off of charities and go fund me projects.
