You'll

beautifully

own
way

I had been having severe emotional upheavals since last night, to the extent that it was showing up in my physical body as acute bodyache, nausea and crying spree. Just having one session of Emotional Deletion method with Vivek bhaiya brought new life in me. Deleting all sort of stored and suppressed emotions of sadness, anxiousness, toxic and harmful relationship patterns and much more. Deleting of all sorts of life denying emotions made me feel like a new me. It felt lighter, brighter, happier and so much more clearer in life after just one single session. I just can't thank you enough for freeing me of all these vicious patterns in my life. Thank you Thank you Thank you !! Ever so grateful !!

Believe

Being God fearing and sticking to the worlds was always a pre dominant mindset in my subconscious since childhood. But after an intense session with Vivek sir in which he took my permission rather say permission from my higher self to delete my emotions via emotion deletion method.

After the session I felt a lot lighter and healed .

The session was really intense which made me go to the depth of my emotions roots and delete it from my subconscious system.

There was a point where I had tears rolling by but I let it flow as it has cleansed me .

Thank you sir for such a beautiful session.

God bless you
