Re: Better Access To Treatment Act (Behavior Analyst Licensure)

To Whom It May Concern:

Our organization, Special Education Advocacy Services of Luzerne, LLC has been made aware of legislation that will require Behavior Analysts to become licensed to practice ABA in the Commonwealth of Pennsylvania. We would like to formally endorse this legislation as we too feel that a Licensure Act will help provide much needed consumer protections against under-qualified providers practicing without proper education, training and certification. If you have any questions about this or our position please do not hesitate to reach out to us at the contact information below. We are very grateful for the leadership Representatives Mehaffie and Murt have shown regarding this matter.

Sincerely,

A handwritten signature in black ink, appearing to read 'Malinda Knipfer'.
