

$$1/4'' = 1'-0''$$

The site plan shows a proposed 10-story building footprint (shaded gray) located at the intersection of Hancock Street and another street. The building is divided into several sections labeled A1, A2, B1, B2, C, D, and E. A parking garage is located to the north of the building. The plan also shows the existing building footprint and the surrounding streets, including Hancock Street and the street to the west.
