Message from Managing Director

May we take this opportunity to introduce our company so that you may consider giving us the opportunity to tender for all your scaffolding requirements on projects, where you feel that our services could assist you to achieve your goal.

Noor Al Murrar Scaffolding LLC is one of the fastest growing scaffolding companies in the UAE, and offers very competitive rates; we specialize in all types of developments and construction, and have recently introduced various scaffolding systems within the company which are very new to the construction industry. The response from our clients since the introduction of these systems has been extremely positive, and allows certain types of developments to be completed with ease.

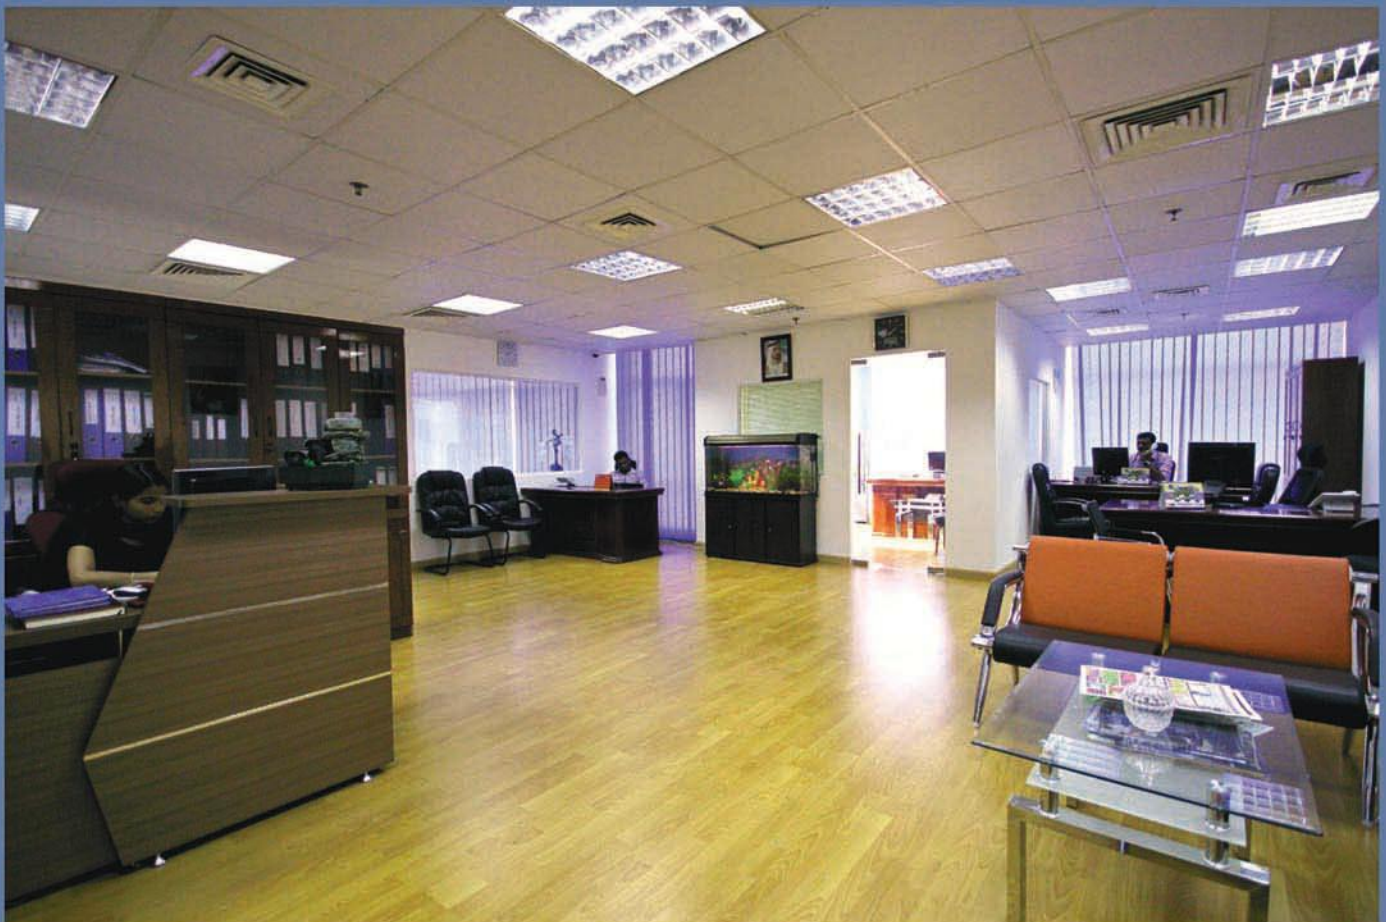

At Noor Al Murrar Scaffolding LLC, we recognize that Health & Safety and customer focus is of paramount importance. For this reason we are constantly receiving repetitive works from our customers, due to the dedication and overall standards of our works on their projects.

We pride ourselves on achieving excellence in whatever work we undertake, and the only quality tolerated is that of a nature second to none of any of our competitors. It is our intention to offer you an excellent service at a very competitive rate, as we know that a realistic price from ourselves could be good enough to win you that all important contract order. At Noor Al Murrar Scaffolding LLC, we are proud to be able to turn that all important enquiry into a very attractive quotation.

Thank you very much for the time you have spent reading this letter, and if you feel that we could be of service to you in the future, then please do not hesitate to give us a call.

Assuring you of our desire to be of service at all times.

Sadeer Ayooob

Quality, Healthy & Safety

Quality Assurance Policy

This policy supports the business's dedication to providing professional, quality scaffolding and services and enhancing customer satisfaction. The success of our quality assurance management is dependent on the entire work team being totally committed to achieving our objectives in regards to quality assurance and recognising their own important role with it. Together we can build on our reputation for excellence and encourage our clients, contractors and suppliers to actively support our best quest for quality.

Objectives

Noor Al Murrar Scaffolding's goal is to provide outstanding scaffolding services by understanding our customer needs, meeting their requirements, and exceeding their expectations. The key areas of policy within quality assurance management are to:

- Comply with all relevant statutory and regulatory obligations, industry guide lines and contractual requirements;
- Provide experience and ingenuity to meet the challenges of scaffolding;
- Design and develop quality, timely and cost effective solutions that meet all client and third party requirements;
- Continually monitor and assess client needs during the performance of work and levels of satisfaction after completion work;
- Thoroughly plan, manage and control work to ensure the satisfactory completion of projects with nominated timeframes;
- Employ a process approach to ensure principles of our quality management system are integrated into all activities performed by our staff;
- Provide documented systems and procedure to ensure the company operates effectively.;
- Ensure that purchase products conform to the requirements of the company, particularly where the supplied product is integrated into customer services;
- Provide measurable objectives and ongoing training and development to ensure that our employees achieve quality customs whilst complying with statutory and regulatory requirements;
- To promote a culture of continual improvement;
- Senior management provides appropriate commitment, resources and information to enable the company to meet the stated objectives.

Quality, Healthy & Safety

Noor Al Murrar Scaffolding is committed to the provision of a safe and environmentally responsive workplace and a safe working environment for all personnel.

Noor Al Murrar Scaffolding objective is to collectively work towards the prevention of all failure events that cause harm to the environment, injury and disease to our workers and employees and subcontractors and to be seen an industry leader, in our performance.

Noor Al Murrar Scaffolding the team are committed to developing a quality WHS & E Management system that is tied to our quality system and that fosters participation, commitment and continual improvement by our workers and employees and of our subcontractors to achieve the above objectives.

One of the selection criteria of all of our workers, employees, consultants and subcontractors will be based on their attitude, standard and commitment to safety of everyone and to the protection of the environment.

Subcontractors and consultants alike will be required to comply with the health, safety and environment procedures in all their operations. No business objectives take precedence over the health and safety of our people and to the protection of the environment.

Noor Al Murrar Scaffolding workers and employees will accept responsibility for the environment protection, health and safety of all workers and employees involved in any our projects, and aim to the achieve a standard of health, safety and environmental management in the workplace of which we can be proud.

This policy and associated quality system procedures will be reviewed in consultation with the appropriate stakeholders are required.

In particular Noor Al Murrar Scaffolding will demonstrate their commitment by complying with relevant legislation applicable to the area of their activities.

Workers and employees must also recognise and acknowledge their obligations and responsibilities to workplace health and safety by providing a positive contribution to health and safety for themselves and others at the workplace.

Scaffolding such as BS1139, JIS and system scaffolds are strong, rugged, heavy-weight- working platforms in a variety of size, heights and options. All are designed manufactured to assure maximum safety performance and efficiency. Therefore, our scaffolds have been performed by various sectors and offshore applications to general contracts.
