

Shoshone County EMS Corporation

Monthly EMS Training December 2018

Purpose:

To provide Shoshone County EMS Providers a monthly training topic for Continuing Education. This program is geared to our current 911 system and will follow the 50 hours of required C.E. for NREMT recertification of the [NCCP model at the Advanced-Level](#). In addition, included will be local protocols and quality improvement trends. For any questions, discrepancies please contact me through email aboatman@scems.org

Instructions:

As a crew, review all portions of the monthly topic in order and fill out an appropriate Fire House training log. Each month will contain between 2-5 hours of EMS training. All information for the month will be located on the Shoshone County EMS website under TRAINING tab, then select the appropriate month.

December 2018 – Anatomy & Physiology

1)	Watch	EMT 1-4: Overview of the Human Body and Physiology	
2)	Quiz	Online Quiz	
3)	Log	Department Training – Fire House	
		1Hour – Airway/Respiratory/Ventilation – Ventilation
