

7M City: Colorado Springs/Pikes Peak Region

The initiative of Kingdom-focused Believers to see Colorado Springs/Pikes Peak become a genuine city of righteous, a true “7 Mountains” major metropolitan area, operating according to Biblical principals and with great cooperation within and between all spheres.

Colorado Springs and the rest of the Pikes Peak region are specifically positioned to become a 7 Mountains city, and to be a witness to the United States and the world that it is possible for a large community of people to run their personal, professional, and governmental lives according to the dictates of the Almighty, and be blessed from the bottom to the top because of it.

Some of the unique features of Colorado Springs are: Dominant military culture which understands both authority and how to respect and work with people of all backgrounds; large presence of major international ministries including Focus on the Family, the Navigators, Compassion International, and Andrew Wommack Ministries/Charis Bible College (to name but a few); the Olympic village and the exceptional people who come to the city to train; rated by Forbes as one of the most conservative large cities in America; geographically in basically the direct center of the US and the highest elevation major American city (literally it has the “high ground”); has a spiritual history of staunch Christian values even when the rest of the state had just the opposite; Loren Cunningham and Bill Bright first met in Colorado to share the revelation of the seven spheres that God had given them; and (let’s face it) it has THE mountain, America’s Mountain, the “purple mountains majesty” that is Pikes Peak! (and so much more)

Some Suggested Initiatives for “Culture Impact” of Each Mountain:

7 Mountains Bootcamp: 13-week training course to disciple young and old in the 7 Mountains mandate, including how to: take their specific mountain, find strategic partners in their field of influence, and cooperate with those in other mountains. Offered through churches and other institutions to anyone in city who wishes to be trained and certified.

Religion: Training pastors and other Christian leaders, who are our *Priests*, on the 7 Mountains, bringing the churches together over the common goal of discipleship of Biblical values into each mountain in order to bring true revival to the region. Various 7M programs run by or through churches and other faith-based organizations.

Family: Working with Biblically-based family-focused programs in the city to support traditional family values, especially discipling at-risk youth to find their purpose and take their mountain, including practical career training in cooperation with the Business mountain.

Education: Work with area Christian schools to offer 7 Mountains training, and offer a “7 Mountains Boot Camp” for everyone in the region, including youth in public schools and colleges.

Government: Encourage and equip Christian conservatives to run for all levels of local, state, and federal offices. Work with current government leaders and governing authorities so that they understand the benefit of undertaking a 7 Mountains mandate for the city. Support our leaders who uphold Biblical principles both before and AFTER the election.

Media: Launch a local free paper that supports 7 Mountains values (the current free paper, The Indy, which is distributed everywhere, is super-liberal), launch a 7 Mountains radio station and associated internet TV channel. Support Christians and conservative-leaning professionals who work in local media, as they are our *Prophets*.

Arts/Entertainment: Support Christians and conservative-leaning professionals who work in local arts and entertainment professions, encouraging them to produce content that represents the 7 Mountains mandate, and financially supporting their work.

Business: Training local businesspeople in the 7 Mountains so they understand their importance as leaders, job creators, and financial supporters of the other mountains. Business leaders are the *Kings* of our community!
