

What are the 7 Mountains?

There are 7 main spheres that influence society, all other influences are contained within these, and, as God is giving greater revelation in these times, we are seeing His strategy more clearly. The Promised Land, which Joshua was to occupy, had seven nations already in control that needed to be removed so that the Israelites could possess and occupy the land. Deuteronomy 7:1(GNB)

1. The LORD your God will bring you into the land that you are going to occupy, and he will drive many nations out of it. As you advance, he will drive out seven nations larger and more powerful than you: the Hittites, the Girgashites, the Amorites, the Canaanites, the Perizzites, the Hivites, and the Jebusites.

Each mountain relates to a nation, as mentioned in Deuteronomy, and knowing who these nations are and what they represent reveals clues as to the ruling spiritual forces. Each mountain has controlling spirits assigned to it. Ephesians 6:12 (GNB)

For we are not fighting against human beings but against the wicked spiritual forces in the heavenly world, the rulers, authorities, and cosmic powers of this dark age.

As our battles are not against people, but against spiritual powers, it is wisdom to know the character of the enemy. Ruling powers and spirits always affect the thought life of those under their geographical sphere. Looking at the mountains individually will enable us to have a better understanding of its importance, its effect and the ruling spirits. As we are going to take territory on these mountains this information becomes significant.

The Mountain of Family - The family is the heart to our loving, learning, maturing and development as an individual.

The Mountain of Economy - Economy originally related to the management of a household, but now includes the management of the production, distribution and consumption of the communities' resources, goods and services. It further includes the business and the trading of those, commodities.

The Mountain of Government -Government is the structure that governs or rules a body of people. It establishes conformity through rules, laws and regulations for the benefit of the community

The Mountain of Education - This mountain encompasses all structured education both public and private. Education is vital in society for the passing on of knowledge, skills and values. Most countries have a structured process for the acquiring and imparting of this knowledge, through schooling systems

The Mountain of Media - Media today means mass communication, of news, of information and of general communication in society, using such mediums as newspapers, magazines etc, radio, television, internet and mobile phones. It is the means to reach large numbers of people.

The Mountain of Celebration - This mountain includes arts, entertainment, sport, movies, theatre, music, fashion, electronic games and all matters that entertain or amuse us.

The Mountain of Spirituality - Spirituality often also referred to as religion is the belief in and worship of a higher power either God, or the supernatural. There are hundreds of belief groups across the globe, with the four major religions being Christianity, Islam, Hinduism and Buddhism. The belief of any group of people provides the cultural framework for their society.

Within these 7 pillars of society, there are many sub groupings, which brings clarity to understanding the main groups. Additionally there are overlaps in some fields and this needs clarifying. We need to be clear about the identity of a mountain group because each sphere has its own ruling spirits and it is wise to understand the enemy that opposes you in your territory.
