

The Robo Sapiens

Team Overview

We are FIRST Tech Challenge Team #14503: **the Robo Sapiens**, a team consisting of five high school students attending high school in Sugar Land. Our coach inspired us to compete in FTC, and although we are only a **five-person team** of **high school** students, we believe that our work this season speaks to our **diligence** and **resilience** in not letting challenges get in the way of **success**.

Last season, we were able to achieve **first place overall** at the SW League Championships as well as the **3rd place Inspire Award** at the SE Texas Regional Championship. This qualified us for the **FTC Texas Cup**, where we competed in the playoffs and eventually placed in the top 4 overall in the state of Texas. Although our finish would have qualified us for the **World Championship competition**, the event was unfortunately canceled due to the COVID-19 pandemic. In the past, we have also won the first place **Inspire Award**, Think Award, and Promote Award as well as been SE Texas **Regional Championship Finalists**.
