**CHANGES TO SPECIFICATIONS**

A. Section 01150 – Measurement & Payment

1. Add the following paragraphs to Section 01150 - Measurement & Payment.

1.03 DEDUCTIVE ALTERNATES

A deductive alternate is a reduction in the project scope that the Owner may elect to accept in order to bring the cost of this project within the funds available.

Coordinate related work and modify adjacent work as required to ensure that work affected by each accepted alternate is complete and fully integrated into the project.

The amount shall be the amount that the contract will be reduced if the deductive alternate is selected. The amount will be calculated by the Engineer using the unit prices bid by the Contractor and the quantities listed for each deductive alternate.

- A. DEDUCTIVE ALTERNATE 1 – Stillman Loop to Cedar Drive: Delete proposed storm drain between Stillman Loop to Cedar Drive including the following quantities:

<b>ITEM NO.</b>	<b>DEDUCTED QUANTITY</b>	<b>UNIT</b>	<b>ITEM DESCRIPTION</b>
