

Layered Crab Dip

Recipe From:
Lois Thompson

Ingredients

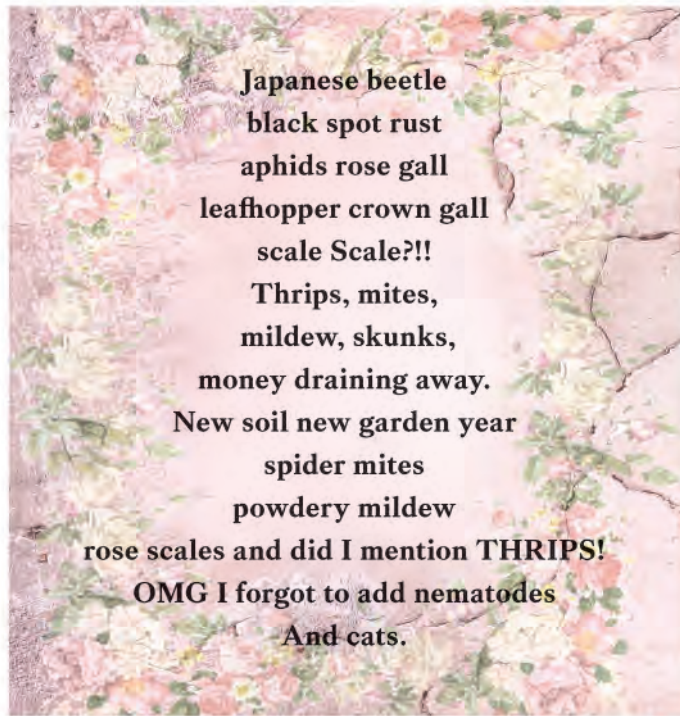

- 2 Cans Crabmeat, Drained
- 2 Green Onions, Minced
- ½C Cucumber, Diced
- ½C Red Onion, Diced
- 1 Tomato, Finely Chopped
- ¼C Lime Juice
- ¼C Lemon Juice
- ½C Orange Juice
- 2 Packages Cream Cheese
- ½C Mayonnaise
- 1 Avocado, Diced

Steps

1. In a glass bowl, combine crabmeat, onions, cucumbers, red onion and tomato.
2. Stir in juices and cover. Refrigerate for at least 6 hours (overnight is best).
3. Combine mayonnaise and cream cheese.
4. Spread mixture over a large glass serving plate.
5. Spread avocado over cream cheese mixture.
6. DRAIN crab mixture, pressing out as much moisture as possible.
7. Spread mixture over avocado.
8. Serve with tortilla chips.

In the Garden

Roses, Stupid Roses, a Poem by Me

Japanese beetle
black spot rust
aphids rose gall
leafhopper crown gall
scale Scale?!!
Thrips, mites,
mildew, skunks,
money draining away.
New soil new garden year
spider mites
powdery mildew
rose scales and did I mention THRIPS!
OMG I forgot to add nematodes
And cats.

Yes I know I am being a drama queen here but hey, so are the roses! They are so pretty and like all very pretty things they are high maintenance. For what it's worth just put lots of well-rotted manure around them, water them reasonably and be sure they are in full sun. Forget the chemicals, actually no, - use the chemicals on yourself – I am talking caffeine and caramelized bread products (fresh from your favourite bakery). So when your roses first come out in bloom enjoy the aforementioned chemicals and sigh because in no time it will be – Japanese beetle black spot rust.....etc
Happy gardening!
