The Cremated Remains Service

This option provides all that is necessary for a cremated remains service

Deciding on a final resting place for your loved ones' ashes can be a difficult decision. We are able to provide you with all of the information that you need to help make that decision.

If you would like your loved ones' ashes to be laid to rest in a Churchyard or Cemetery, we are able to organise and provide all of the needed elements with our 'Cremated Remains Service'.

Our Cremated Remains Service includes:

- Arranging the local interment (within fifteen miles) or scattering of the Cremated Remains at an agreed date and time.
- Provision of a Cremated Remains Casket or Scatter Tube from our Standard Range.
- Provision of a temporary grave marker.
- Attendance of our Funeral Director (Monday to Friday)

We are also able to help with sending ashes to domestic and international destinations and provide advice with regards to transporting cremated remains.

We require that all disbursements are paid in full before the interment. We will then invoice the balance of the account within seven days of the service taking place.*

£235.00 plus disbursements*

*Disbursements are fees that we pay on your behalf to third parties.

We accept payment by cash, cheque, electronic bank transfer, and most major debit or credit cards.
