

# JILL DUBOIS

CLEARWATER, FLORIDA

Capturing, cultivating, and curating JOY is a vision that I carry with me in all of my artwork. Inspired by classic Impressionists, I express through soft, calming color palettes, designing a unique celebration of life that is both delicate and dynamic, reflecting the fleeting and ever-changing nature of joy.

Watercolor's transparency and luminosity allow me to create paintings that are like windows into the world seeing with empathy and inclusivity. In addition, Digital graphic artistry allows me to layer and blend different elements to create works that are both complex and cohesive, reflecting the interconnectedness of all things.

I invite the viewer to experience joy in all its forms, from the simple pleasures of everyday life to the profound moments of connection and wonder.
