Weaving on a Potholder Loom - Basics and Beyond

Come learn the basics of weaving while creating beautiful and useful mug rugs and potholders. We will use high quality metal potholder looms that are yours to keep, explore many different ways you can weave on this simple loom, and many objects that can be created, beyond the potholder. You will leave with several completed objects, more loops to continue weaving, tips, tricks and many ideas for more creations, along with a handout filled with useful insights on material, patterns, and sources for more information.

Material fee to be paid directly to the instructor on the day of the class $20.
One traditional sized metal potholder loom, hook,
and loops for multiple projects provided for all students, along with class handout. You will leave with several completed objects, more loops to continue weaving, tips, tricks and many ideas for more creations, along with a handout filled with useful insights on material, patterns, and sources for more information.

Materials Students Must Bring: Nothing other than a smile, creative spirit and perhaps a bit of nostalgia for this retro craft that has gained popularity again.
