Slow Stitch Wall Hanging with Whimsical Hanger

Mindful and relaxing, slow stitching is the process of adding decoration to fabric through the use of applique, embellishments and simple hand embroidery stitches. In this class you'll be introduced to a new portable textile skill using upcycled fabrics, embellishments and backing on a small piece of fabric.

In this slow stitching class, you will create an 8”X 8” wall hanging complete with backing and hanging loops and a whimsical hanger. You'll learn how to choose thrifted fabric and cut appliques to hand stitch onto a base fabric utilizing several different embroidery stitches.

Students should know how to thread a needle and do simple straight stitch.

A complete kit containing materials needed to make and take an 8"X8" wall hanging will be provided by the teacher for the cost of $15 payable to the teacher the day of the class.
