

Bag of Fiber Fun!

Bag of Fiber Fun

 Fiber Bag Adventure: From Mystery to Masterpiece! ✨

Ever wandered through a fiber show, spotted those fabulous bags of fiber, and thought, “What on earth would I do with that?” Maybe you’ve wanted to buy one but hesitated, or perhaps you already have one sitting at home, waiting for inspiration. Well, this class is here to unlock the magic inside those bags!

 What we’ll do together:

Take a 5-oz bag of fiber and transform it into yarn step by step.

Use a variety of hand tools—cards, combs, blending boards, and diz’s—to tame and prep the fiber. (I’ll have some to share, but bring your own if you’ve got them!)

Explore different methods to break down and spin every fiber in the bag, turning it into something truly unique.

 Going further:

Learn multiple ways to ply your yarn—whether doubling back on itself or experimenting with techniques to add length and variety.

Discover how prepping fibers can be just as fun and creative as spinning them.

Open your mind to new approaches for tackling those intimidating fiber projects hiding in your stash.

☀️ The big takeaway:

This class is all about exploration, confidence, and creativity. You’ll leave with hands-on experience, fresh ideas, and the inspiration to dive into your fiber stash with excitement instead of hesitation.

So, grab that mysterious bag of fiber and join us—because together, we’ll spin it into something extraordinary!  ✨

Equipment list:

Working spinning wheel, lazy kate, 3 clean bobbins, Hand lotion, Tablet/pen, A positive attitude

Cards, combs, blending board, diz (not mandatory but helpful)

I will provide 1-5oz bag of fiber per student.

Material cost paid directly to the instructor the day of the class \$80

I will provide 5+ oz of fiber. I will have the equipment to transfer fiber into yarn but it will be helpful for students to bring some of their own to speed up the class, and it will also help you learn on your own equipment.
