

Tatting 101

Learn the basics of shuttle tatting and create a small motif that can be used to make a necklace or hanging ornament. We will use one shuttle and tatting cotton to learn the basic knotting techniques that are the foundation of tatting. You will also learn how to read a tatting pattern and other tips and tricks to build a good foundation to learn this vintage lacemaking technique. A brief history of tatting and lacemaking will also be presented. Note that this is a very hands on class using small thread and close-up techniques.

BEGINNER CLASS

Tatting thread, shuttle, findings, instructions, and examples provided by the instructor for \$20 paid to the instructor the day of the class.

Please bring a good light and magnification if needed.
