

Crochet with Wire and Beads

Crochet a unique necklace that spans all three using nontraditional materials: wire and beads! In this statement necklace, you will play with color and texture so that the mixture of acrylic beads, semi-precious stones and glass beads come into harmony in the final design.

You'll crochet wire using the basic chain and single crochet stitches. The closure is a lacy, non-conventional strand with no clasp. This unique closure distributes the weight of the necklace so that you can hardly feel it hanging around your neck.

Beads used include a combination of semi-precious stones, vintage beads and handmade glass beads. Crochet Wire of both 26 and 28 gauges are used.

Student must know basic crochet stitches including chain stitch.

A complete kit with all wire and beads needed to complete the necklace is provided by the teacher for \$20 payable to the teacher the day of the class
