

How to make a Cobweb Broom

The cobweb broom, a specialized tool for cleaning high ceilings and corners, evolved from early twig bundles into refined, often round-headed brooms made from natural materials like horsehair or broomcorn. Historically, these soft brooms have been essential for removing abandoned, dusty spiderwebs from household corners for centuries. You will learn how to make a cobweb broom and will compete the broom in class.

Material fee to be paid directly to the instructor the day of the class \$75. All materials will be provided. Please wear tennis shoes, no sandals. Good arm strength is required.
