THE FULL COLLECTION OF GEAR
TO HELP YOU GET. AFTER. IT.

OUR STORY.

IT ALL STARTED IN A BIKE SHOP

Where a passion - ok, obsession - was fueled for continually improving bike performance by applying all the things we wanted for our own rides. Our founders are KOM segment chasers who balance out those bike shop roots with engineering and product development expertise with innovation always front and center.

WE WEREN'T THE ONLY ONES

Looking for higher performing products. Since the company's launch in 2016, KOM Cycling has grown to be a world class manufacturer of tubeless solutions, mounting hardware, and indoor accessories to help athletes to get after it - inside and outside.

ALWAYS PUSHING LIMITS

Our growing customer base and their excitement for all things cycling keeps us stoked to ever-innovate, never settle and forever pledge to take our products next-level to keep your adrenaline pumping on the road or off the beaten path.

WHAT WE BELIEVE IN.

KOM CYCLING

THE PURSUIT OF QUALITY.

We are relentless in our pursuit of quality and founded KOM Cycling to create products that met our exacting standards. We are continually innovating, developing and refining so that we deliver performance without compromise.

THE COMPETITIVE EDGE.

KOM Cycling products are created to provide the highest level of on-bike performance and give you the competitive edge. Our aim is to enhance your cycling experience through innovative design and intelligent engineering.

INNOVATIVE DESIGN.

We have combined our passions for cycling and engineering to produce accessories that outperform our rivals. Our independent nature and focus on exceptional customer service allow us to listen, respond and deliver exactly what you need.

OUR FOCUS.

TUBELESS

SEALANT INJECTOR

 **KOM CYCLING**

T102

T103

TUBELESS INJECTOR

Setting up tubeless can be a pain, but it doesn't have to be. Our Tubeless Sealant Injector takes the headache out of tubeless installation with a simple and effective design.

TUBELESS

SEALANT INJECTOR

TUBELESS SETUP MESS FREE.

Traditional tubeless sealant injectors go over the valve which causes sealant to gunk up the valve and not allow air into the tire. Our design allows for the syringe to go all of the way to the tire without clogging up the valve.

NO MORE REMOVING THE TIRE.

Our Tubeless Sealant Injector injects sealant directly into the tire, allowing you to add and remove tubeless sealant without removing your tubeless tire. Saving time and energy!

WORKS WITH A RANGE OF SEALANTS.

The KOM Cycling Tubeless Sealant Injector works with any low-viscosity tubeless tire sealant like Stan's, Bontrager, Finish Line, Slime, & OrangeSeal.

MULTIPLE RADAR MOUNTING OPTIONS

KOM Cycling provides a variety of radar mounting solutions designed to fit different seatposts and saddle configurations.

DESIGNED FOR TOP SELLING RADARS

Designed to work with the top selling radars currently available, including Garmin Varia, Wahoo Trackr, Magene, and the Bryton Gardia.

ARE YOU POSITIONED TO SUPPORT THE GROWTH OF RADARS?

Currently the only offering is the OEM Garmin mounts which is not versatile enough, and offers poor margins for shops.

MOUNT

HARDWARE

Engineered for Cyclists Shop Driven Packaging

FOR ALL COMPUTERS (GARMIN + WAHOO)

Shops don't want to carry a variety of mounts (xl vs regular, Garmin model and Wahoo, etc).. They want an easy go to mount that is compatible with every computer from both Garmin and Wahoo.

31.8MM AND 35MM COMPATIBLE

Bike shop sales associates can sell KOM Mounts with confidence, as they are compatible with the most common handlebar sizes (31.8 and 35mm), ensuring a seamless customer interaction.

ACCESSORY READY

Our Quick Release system makes installation and removal of accessories seamless, eliminating the hassle for riders who want to charge electronics and change setups.

QUICK RELEASE SERIES

The most versatile do-it-all mounts designed for Garmin, Wahoo, and GoPro style accessories with quick release functionality - locking your precious equipment in with a unique locking system that never lets go. Available in handlebar, stem, and integrated versions.

ONLY), GARMIN DISC, WAHOO DISCS,
SHIMS / COMPATIBILITY: 35MM, 31.8MM
AND 25.4MM BARS

Why We Developed This Mount

TO ACCOMODATE LARGER COMPUTERS

We are relentless in ensuring our mounts meet the standard of every computer on the market. The CM06 fits flawlessly with the larger Garmin Edge 1030 series.

TO FIT EVERY HANDLEBAR SIZE

With the rise of 35mm handlebars we wanted to ensure our mount works with the new spec in MTB handlebars.

TO MAKE ATTACHING ACCESSORIES EASIER

Installing and removing accessories is time consuming and we wanted to tackle this problem with a quick release system.

Introducing the Media Display

RIDING INDOORS IS CHANGING

Gone are the days of dreading your trainer workouts. With Zwift, TR, and The Sufferfest cranking out watts in your basement has never been more fun and engaging.

A DEVICE SOLUTION IS IN DEMAND

Instagram hashtags such as #zwift allowed us to crowdsource a view into the modern-day cyclist's pain cave. The majority of setups showed clunky non-value-adding ways of holding their devices out front. We knew there had to be a far superior solution.

CREATING THE PRODUCT RIDERS WANT

We set out to create the best portable solution for riders looking to display their content out front while riding indoors. Featuring an anti-slip surface, 2 water bottle slots, cable management, and an adjustable design we are proud to announce the Media Display. The pain cave solution riders have been looking for!

MEDIA

DISPLAY

TECH SPECS

34"-50" / Grippy No-Slip Surface /
Multi-Notch Device Holder / 2 Water
Bottle Holders

What Reviewers had to say

“In fact, this is arguably the best tablet design out of any desk I've tried. It's got three 'levels' of thickness acceptance in it, so it can actually accommodate phones in cases. Also, it's got more than enough holes to slide charging cables through too.”

DC RAINMAKER

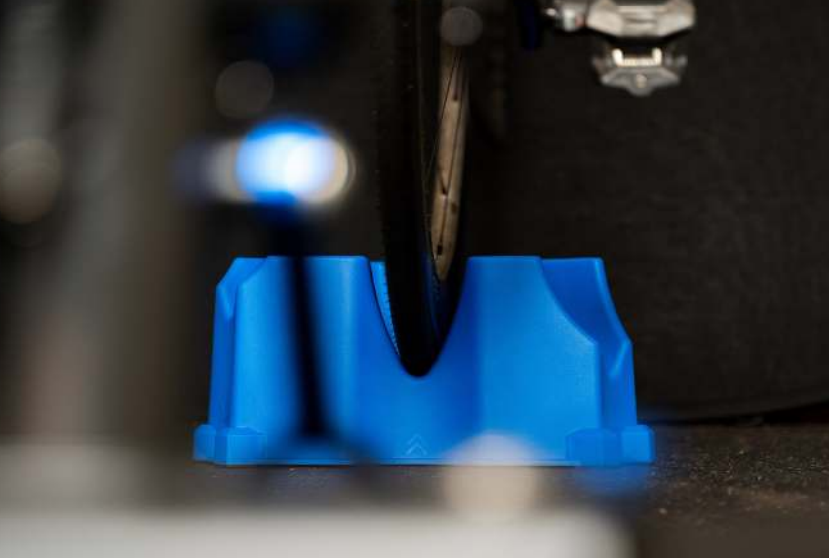

“It's simple, not bulky, very lightweight, and easy to move around if you need to, and most importantly doesn't take a lot of space like other desks out there.”

WORKS WITH GARMIN

 **KOM CYCLING**

KOM Cycling is excited to announce its partnership with Garmin through the "Works with Garmin" program, which will bring the "Works with Garmin" logo to our packaging starting in 2025. This collaboration also provides KOM Cycling early access to Garmin's unreleased products, enabling us to design compatible mounting solutions in time for new Garmin releases. By working closely with Garmin, we're committed to enhancing the cycling experience with seamless integration and readiness for Garmin's latest technology advancements.

DEDICATED TO THE LOCAL CYCLING COMMUNITY

KOM Cycling has been dedicated to supporting local youth cycling program, MiSCA, since 2019.
