A photograph of two children, a boy and a girl, riding bicycles on a brick-paved surface. The boy, on the right, is wearing a white long-sleeved shirt, brown pants, and a white helmet. He is riding an orange bicycle. The girl, on the left, is wearing a white long-sleeved shirt, dark pants, and a pink helmet. She is riding a blue bicycle. They are both smiling and appear to be having fun. The background features a brick building with a blue-framed window and a blue door. A vintage-style light fixture is mounted on the wall to the left. The overall scene is bright and sunny.

2026 KID'S BIKES

KIDS BALANCE BIKE

US MSRP: \$

Remember your first time on a bike? Recall the feelings of independence and excitement? For your favorite little one, those feelings find their roots in the Balance Bike. Designed simply and without pedals so kids can keep their feet on the ground while working to establish balance.

2026 MTB's

MB.1 MOUNTAIN BIKE

Sometimes, you just want to leave the pavement behind and breathe in the fresh air of the trail. With the Batch MTB, you don't need a bulky, overbuilt off-roader—just a rugged, lightweight aluminum frame, double-wall rims, and rock-smoothing front suspension. It's equipped with all the gears you need to conquer any climb and cruise back down with confidence. That's the Batch MTB: built to take you far and bring you home, reliably and comfortably.

MB.2 MOUNTAIN BIKE

Take our popular mountain bike, upgrade it with powerful hydraulic disc brakes and a smooth-shifting 1 x 9 drivetrain, and you're ready to leave the pavement behind. The Batch MTB features a rugged, lightweight aluminum frame, double-wall tubeless-compatible rims, and rock-leveling front suspension—everything you need to tackle tough terrain with confidence. With enough gears to get you there and back, no matter the grade, this bike is built for adventure. That's the Batch MTB: performance that takes you way out there, and dependability that brings you back home.

A man and two children are riding step-thru bicycles on a paved path through a park with large, leafy trees. The man is in the center, wearing a brown long-sleeved shirt and tan pants, smiling. To his left is a young boy in a black long-sleeved shirt and orange pants, and to his right is a young girl in a white long-sleeved shirt and black pants. All three are wearing helmets. The path is surrounded by trees and sunlight filtering through the leaves.

2026 STEP THRU BIKES

SB.1 STEP THRU BIKE

The Batch SB.1 Step-Thru is your everyday comfort companion—designed for smooth, confident rides around town or through the park. Its easy step-thru frame pairs with upright handlebars and a relaxed riding position for maximum comfort and control. The Shimano 7-speed drivetrain with a 14–34T gear range handles varied terrain with ease, while mechanical disc brakes deliver reliable stopping power in any weather.

Anatomical grips and a comfort saddle complete the ride, making the SB.1 a smart, stylish choice for casual cruising.

A man and a young boy are riding bicycles on a paved street. The man, on the left, is wearing a black helmet, a green t-shirt, and light-colored pants. The boy, on the right, is wearing a white helmet, a black long-sleeved shirt, and brown pants. They are both smiling and appear to be having fun. The street is lined with palm trees and other greenery. In the background, there are mountains under a clear blue sky.

2026 HYBRID SPORT

HS.1 HYBRID SPORT BIKE

The Batch HS.1 Hybrid Sport is built for riders who crave adventure—on the trail, around the neighborhood, or anywhere in between. Its lightweight aluminum frame and fork deliver responsive handling with an aggressive, athletic style. Outfitted with a Microshift 1x8 Acolyte drivetrain and a wide 11–46T gear range, it's ready to climb, cruise, and conquer. Grippy 27.5" x 2.30" all-terrain tires provide confident traction, while an anatomical saddle ensures comfort on every ride. The HS.1 is your go-anywhere, do-anything hybrid built for spirited exploration.

A photograph of two people on a gravel bike, viewed from the rear. The person in front is wearing a white helmet and a dark long-sleeved shirt. The person behind is wearing a dark helmet and a dark long-sleeved shirt. They are on a gravel path next to a body of water, with mountains in the background under a blue sky with clouds. A large tree branch hangs over the top right of the frame.

2026 GRAVEL BIKES

GB.1 GRAVEL BIKE

The Batch GB.1 Gravel Bike is your gateway to adventure—built to go beyond the pavement and into the unknown. With a lightweight hydroformed 6000-series aluminum frame and double-butted tubing, it's engineered for both speed and durability. The wide-range Microshift Sword Black 9-speed drivetrain gives you the gearing to tackle climbs and coast through open stretches, while mechanical disc brakes provide confident stopping power on any surface.

Whether you're exploring backroads, gravel paths, or scenic detours, the GB.1 is ready to awaken the explorer

GB.2 GRAVEL BIKE

The Batch GB.2 Gravel Bike is built for riders who crave versatility, speed, and exploration beyond the pavement. Its lightweight double-butted 6061 aluminum frame is equipped with a full range of mounts for water bottles, racks, bento boxes, and bags—making it ready for everything from weekend bikepacking to daily commuting.

A full carbon fork keeps the ride smooth and responsive, while the Microshift Sword 1x10 drivetrain delivers crisp shifting and a wide gear range for tackling varied terrain. Tubeless-compatible double-wall rims paired with multi-condition 700 x 42mm tires offer confident traction and comfort on gravel, dirt, or pavement. Tektro mechanical disc brakes ensure reliable stopping power in all conditions, and a forged 6061 aluminum crankset adds strength without the weight.
