

HUFFY

2026 BMX CATALOG

WHAT MAKES HUFFY BMX DIFFERENT?

We're in this for the same reason you are: to keep BMX thriving. Everything we do from the team we've built to the bikes we design to the way we price them is about getting more riders on bikes and keeping them there.

By offering well-built, high-quality BMX products at prices that make sense, we help lower the barrier to entry for new riders and families without cutting corners. At the end of the day, we're here to support the core of the BMX world: the riders who live and breathe BMX and the independent shops that keep them riding.

WHY STOCK HUFFY BMX BIKES?

We build complete BMX bikes and performance frames that riders actually want to ride, with innovative design, solid engineering, and prices that make sense. That way, you can offer great bikes at a great value to the people who matter most to your shop: your riders.

Backed by real marketing, service, and sales support from our team in Dayton, Ohio (and local territory reps who know your market), we make it easy to bring Huffy BMX bikes and frames onto your floor. That way, you can spend less time worrying about logistics and more time doing what you do best: supporting the riders and families who keep your shop rolling.

HUFFY
HUFFY

THE SLEDGEHAMMER FREESTYLE BMX FRAME

COLORS: RICO BLUE, DYNAMITE BLACK

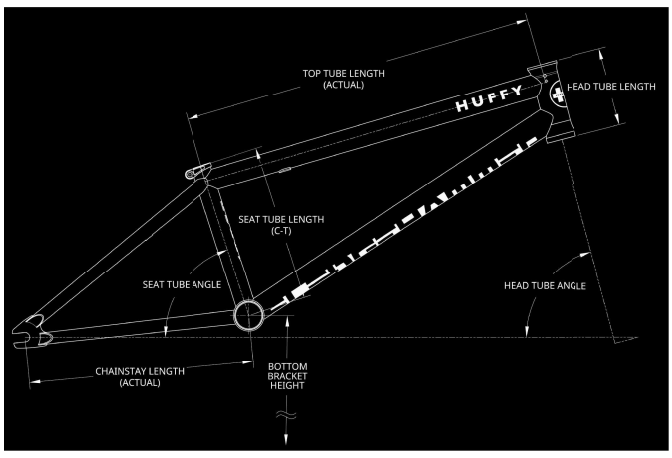

SIZE (TOP TUBE): 17.5-inch, 20.6-inch, 20.9-inch

KEY FEATURES:
100% 4130 CHROMOLY FRAME
6MM THICK 14MM DROPOUTS WITH INTEGRATED CHAIN TENSIONERS
INCLUDES BRAKE MOUNT HARDWARE

The Sledgehammer was created to complement a riding style that is powerful and progressive. Built with the feedback and insight of Olympian and professional freestyle rider Nick Bruce and his protégé Huck Kurinsky, the Sledgehammer is fit to perform on the biggest stages of freestyle BMX. With a tube set engineered to eliminate gussets while maintaining strength and durability, this frame is ready to hit the park, the street, or wherever a freestyle rider wants to take it.
