

## A B O U T K O O

KOO Eyewear is an innovative sportswear brand specializing in developing, designing and manufacturing high-performance sunglasses and goggles of the highest quality.

KOO is setting the trend with cutting-edge eyewear which, entirely designed and crafted in Italy, seamlessly blends technological excellence, superior materials and an iconic design.

All KOO products are manufactured to the highest standard with rigorous testing to ensure consistent quality and safety, and fitted with premium ZEISS® lenses as standard for unparalleled clarity and protection.

Red Bull - BORA - h a n g r o h e

Red Bull - BORA - hansgrohe is the only German team in the UCI WorldTour.

This year, Team Manager Ralph Denk's squad is in its 15th season. Starting out as underdogs, the team has gradually established itself among the world's top teams. Overall victory in the Giro d'Italia, stage wins in all Grand Tours and victories in major classics have already been achieved.

They underline Red Bull - BORA - hansgrohe's ambition to win the biggest races. 29 pro riders from 14 nations, including big names such as Primoz Roglič, Jai Hindley and Lennard Kämna, make up the "Band of Brothers".

TEAM POLTI  
KOMETA

Team Polti Kometa is an Italian professional cycling team that belongs to the ProTeam category. With a special focus on the development of talent, it also has two filial teams in the U23 and Jr categories.

Despite the youth of the project, they have two victories in the Giro d'Italia: Monte Zoncolan in 2021, and Campo Imperatore in 2023 as part of their most important achievements, as well as having developed in their structures some of the most promising cyclists of the international peloton.

CERATIZIT - WTN  
PRO CYCLING TEAM

CERATIZIT - WNT Pro Cycling Team was founded in 2014 as a small regional club team, before expanding in 2015 with some of the best riders joining the roster racing nationally throughout Great Britain. The teams mantra has always been step by step and by 2017 the team joined the professional ranks as a UCI registered team, whilst continuing to become more international. Fast forward to 2024 and the team has joined the UCI Women's WorldTour ranks, racing on the highest and most prestigious stage in professional cycling.

The team lives by four values which are the foundation of the work of its title sponsor CERATIZIT. The four values such as team work, fighting spirit, long-term thinking and creativity go hand in hand with professional cycling, and epitomises what is needed to compete on two wheels at the top level of sport.

ALBERTO  
CONTADOR

Originally from Madrid, Alberto is one of the most known road cyclists in the world. His victories in two editions of the Tour de France, two of the Giro d'Italia and three of the Vuelta in his 14th season as a pro made him one of the most suitable riders for these stage races, a title that he has always cultivated from the beginning thanks to his climbing abilities. At the end of his career, he ended up being the 5th cyclist in history that could claim the win of the general classification of all these three big races, the first Spanish rider to reach this achievement.

Other than this, he won several monumental races along the years, such as the Itzulia Vuelta al País Vasco, Paris-Nice, Volta a Algarve, Tirreno Adriatico and Vuelta a Burgos, and much more.

With its innovative sleek half-frame design, ALIBI seamlessly adapts to both road and gravel/off-road terrains, offering a truly distinctive and versatile riding experience. Specially crafted to cater to smaller head sizes and thanks to the half-open frame, ALIBI guarantees exceptional clarity and visibility, eliminating any obstructions in the lower part and allowing cyclists to enjoy an uninterrupted ride.

KOO EDGE features MTB-specific lens technology, with optics that have been developed in partnership with ZEISS® for optimal performance in an MTB habitat.

**TYPE OF USE**

Downhill  
Enduro  
BMX

**SIZE AND FIT**

One Size

**ULTIMATE VENTILATION**

With added ventilation built into the frame, the EDGE ensures that vision is always crystal clear and fog-free, even in the most testing conditions.

**MTB LENS TECHNOLOGY**

The ZEISS® lens have been specifically developed for optimal performance in an MTB habitat, featuring the most durable, scratch-resistant materials and advanced colour technology to tune and enhance visual clarity in any weather condition.

**REMOVABLE NOSEGUARD**

The EDGE features a removable nose guard for extra protection against loose debris, while optimising the stability of the goggle on the face.

**SLOT-IN LENS REPLACEMENT SYSTEM**

Changing lenses has never been simpler and faster than it is with the EDGE. Removal and replacement is incredibly easy using KOO's slot-in system without leaving fingerprints and marks on the lens.
