MICROTECH

We have chosen the best partner to develop and create a bike bag collection produced by Italian artisans, with the same quality and attention to detail that we put in each of our bikes.

Compact, practical and ultralight: thanks to the Basso Integrated Top Tube bag, you will have easy access to everything you need while you are pedaling. Whether it's during a multi-day gravel race, a long ride on the saddle, or a simple outing of a few hours, its fastening position between the stem and the top tube is strategic. Its bolts have been designed to avoid abrasions or scratches on the frame and at the same time make the bag firm.
