

CIVIL ENGINEER

Hess Engineering and Construction Consultants is looking to hire a full-time, entry level civil engineer with strong drafting skills to join our team. The civil engineer will play a major role in both high-end residential and small commercial projects. This is an excellent opportunity to join a young, family-oriented organization that offers ample room for growth and learning.

Responsibilities:

- Developing detailed designs.
- Doing feasibility assessments and site inspections.
- Preparing and implementing project plans.
- Reviewing government regulations and ordinances.
- Making recommendations or presenting alternative solutions to problems.
- Confidently liaising with clients and other professional subcontractors.
- Project management duties (e.g. managing budgets, resources, and deadlines; acquiring and compiling quotes, etc.).

Requirements:

- Bachelor's degree in civil engineering or related field
- Familiarity with design software, such as Autodesk, AutoCAD Civil 3D and Carlson.
- Knowledge of map creation software and photo imaging software.
- Strong analytical and critical thinking skills, with a high level of accuracy in calculations and design.
- Excellent time management skills to ensure project deadlines are met.

Featured Benefits:

- Medical Insurance
- 401K
- Hybrid Schedule

To apply, please email your resume to William Hess, PE at whess@hessengineeringllc.com.
